

# GNK285KBL

## High Flow, Dual Flow Water Filtration System

### DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

**HOW IT WORKS:** This system allows you to choose between filtered and unfiltered water from your existing kitchen faucet. The system includes an industry first filtration controller to allow the filtration to be turned off and on. The system is installed under the counter and connects to the main water line. Before installing, see installation instructions for complete details.

**REPLACEMENT FILTERS:** FQK2J It is recommended to replace the filters every 6 months or 300 gallons. To order replacement filters visit [gewaterfilters.com](http://gewaterfilters.com) or call 800.626.2002. GNK285KBL is certified by IAPMO R&T against ANSI/NSF Standards 42, 53 and 401 for the reduction of claims specified on the performance data sheet and at [iapmort.org](http://iapmort.org).
