# refrigeration

January 2006 new product introductions

New product introductions 2006 GE Profile™ and GE® CustomStyle™ refrigerators

## Your dream kitchen starts with a CustomStyle™ refrigerator.

This is the stuff dreams are made of. GE Profile™ and GE® CustomStyle side-by-side refrigerators feature wonderfully innovative design elements that make it possible to have the look of a true built-in refrigerator without the expense.

The magic lies in counterdepth styling, which allows
CustomStyle refrigerators to
blend in almost seamlessly
with surrounding cabinetry.
The refrigerator simply slides
into the space between
cabinets, providing the built-in
look consumers dream of—
and ask for!

An array of design options truly puts the "style" in CustomStyle refrigerators. Models come with panels or without, with choices of color, and handle style and many outstanding features.

Dream on!

# Putting the "style" in CustomStyle™ refrigerators

# The magic of counter-depth styling

The sleek, expensive-looking, built-in appearance of GE® and GE Profile™
CustomStyle refrigerators is made possible by their ingenious counter-depth design.
Simply put, they don't protrude, but instead fit almost completely flush with surrounding cabinetry. With a CustomStyle refrigerator, the whole kitchen looks new.

It's like a dream come true!

# The "How-To" for making dreams come true

Three simple steps. That's all it takes for your customer to choose the perfect CustomStyle refrigerator. **First**, choose either a model designed to accept slide-in panels, or a stylish no-panel model.

**Second**, choose a model that fits. Panel-ready and no-panel models are both available in 23 and 25 cu. ft. sizes. Width and depth are identical, but the 25 cu. ft. model is almost three inches taller.

**Third**, choose must-have features, arranged in groups and identified by series letters Q, K, M, N and P.

One, two, three and a dream kitchen is born!

# CustomStyle™ side-by-side refrigerators quick pitch

### Freshness at every level

Stylish Appearance
Counter-depth styling provides a sleek, stylish built-in look.

Exceptional Food Preservation

ClimateKeeper2™ with two evaporators keeps fresh foods garden fresh longer and keeps frozen foods at their best.

Ultimate Convenience
Easy-to-use PreciseFill technology provides fresh, filtered water in accurately measured amounts.

# What's new: Updated features enhance convenience and good looks Freshness at every level

GE Profile CustomStyle™ side-by-side refrigerators are loaded with innovative features designed to make every kitchen more functional...and more beautiful! PreciseFill technology means it's now possible to fill pots and mixing bowls—or any container—with fresh, filtered water in easy-to-select, accurate measurements. Add an attractive, new dispenser design and there you have it—the "wow"

## PreciseFill technology makes cooking easier

Accurate and easy to use, PreciseFill dispenses the amount of water needed—by ounces or cups—with a simple, two-button programming function.

### Newly-designed integrated dispenser adds style

The sleek, molded, color-matched dispenser with LED lighting gives the entire refrigerator an attractive, updated look that enhances any kitchen.

### Three distinct GE Profile appearances appeal to every taste

**P-Series models** feature the new integrated dispenser with beveled, color-matched design and advanced PreciseFill technology.

N-Series models feature the new integrated dispenser with its beveled, color-matched design.

M-Series models feature an elegant black dispenser with stainless trim.

### ExpressChill™ goes solo

Formerly available only as a function of CustomCool™ technology, ExpressChill now performs its magic as a solo act! The full-extension, sealed crisper chills beverages quickly. Three chill time settings of 15, 30 or 45 minutes are controlled with easy, one-button selection.

# Feature gallery: CustomStyle™ side-by-side refrigerators

SmartWater<sup>™</sup> filtration system

Removes more impurities. The result is clean, great-tasting water and ice.

### Integrated Ice™ system

The bucket is integrated into the icemaker, freeing up valuable space. Tilt-down feature provides easy access.

QuickSpace<sup>™</sup> shelf

Slides out of the way to make room for tall items.

Integrated dispenser with PreciseFill

Allows filling of any container with fresh, filtered water dispensed in easy-to-select, accurate measurements.

Slide 'n Store™ full-extension freezer baskets

Extends 16" for easy loading and unloading.

### only GE has it

Full-extension bin with CustomCool™ technology

Chills in minutes, thaws in hours and helps keep foods fresh, longer.

# Electronic controls with actual temperature display

Takes the guesswork out of selecting temperatures.

### TurboCool™ feature

Cools the refrigerator after frequent door openings.

# Electronic beverage center

Keep beverages and treats icy cold and easily accessible.

### Adjustable ClearLook™ bins

Hold gallon-size containers with style and ease, freeing up valuable shelf space.

# Slide-out, spillproof glass shelves

Simplify loading, unloading and cleaning.

### GE Reveal™ lighting

Casts a pure, naturallooking glow throughout the refrigerator.

### ClimateKeeper2<sup>™</sup> system

Keeps foods garden fresh longer, while protecting ice from odor transfer, with its unique dualevaporator system.

Available on CustomStyle models:

PSC23PST	PSC25NST
PSW23PST	PCF25PGT
PSH23PGT	PSC25PST
PSH23PST	PSH25MGT
PSC25MGT	PSH25MST
PSC25MST	PSH25PST
PCF25NGT	

### The inside story: GE Profile CustomStyle™ side-by-side refrigerators

The ClimateKeeper2<sup>™</sup> system uses two evaporators to create two separate climates—one for the fresh food compartment and a separate one for the freezer. Creating and maintaining higher humidity for fresh foods helps keep them garden fresh longer. Providing a dry environment for frozen foods keeps them at their best.

On the left:

Asparagus after five days—
Conventional system
Stalks have begun to bend
and appear lifeless.

On the right:

Asparagus after five days— ClimateKeeper2 system Fresh-looking in texture and color, the bright-green stalks stand straight.

### ClimateKeeper2 dual-evaporator system

- Keeps food garden fresh longer
- Reduces defrost cycles to help keep frozen foods at their best
- Cycles air in the fresh food compartment separately from freezer air, preventing the transfer of food odors

### Conventional single-evaporator system

- Allows air and odors to circulate between the fresh food and freezer compartments
- Dry air from the freezer absorbs moisture from fresh foods
- Allows humidity from the fresh food compartment to transfer to the freezer, causing more frequent defrosting and the increased chance of freezer burn

"Finally, ClimateKeeper2 brings out the best in foods. It keeps temperature and humidity under control so foods stay fresh longer."

—Alton Brown, Host/Writer of Food Network's "Good Eats"

AutoEnergy saver

Senses freezer and fresh food door openings and adjusts the refrigeration operation cycles accordingly.

FrostGuard<sup>™</sup> technology

Protects frozen items from freezer burn by monitoring freezer door openings and defrosting only when needed.

NeverClean<sup>™</sup> condenser

Encased coils don't require cleaning in normal operating environments.

Premium quiet design

Significantly reduces operating noise.

**ENERGY STAR®-qualified** 

Most side-by-side models are ENERGY STAR-qualified. See chart on pages 36-37 for details.

M-Series models feature an elegant black dispenser with stainless trim.

### ExpressChill™ goes solo

Formerly available only as a function of CustomCool™ technology, ExpressChill now performs its magic as a solo act! The full-extension, sealed crisper chills beverages quickly. Three chill time settings of 15, 30 or 45 minutes are controlled with easy, one-button selection.

### What's new: Enhanced features update GE® refrigerators

Freshness at every level

# External controls provide easy access

GE models are redesigned with external electronic controls that include a display of **actual freezer and refrigerator temperatures**. This gives the interior a cleaner, more streamlined appearance.

GE models now have a smart,

new look—and enhanced

functionality—thanks to

what's on the outside.

### Refined features update the look

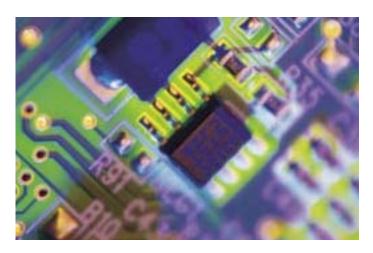

GE refrigerators sport a newlydesigned GE **CleanTouch handle** that's sleek and smooth, with a sure-grip undersurface.

Gently **contoured doors** further enhance GE models, providing a sophisticated, up-to-date appearance.

### ExpressChill™

Located on the dispenser is a one-touch control for ExpressChill, a full-extension, sealed crisper that chills beverages in a quick 45 minutes or less.

### Electronic technology drives performance

Every GE refrigerator is designed using advanced technology that makes possible an impressive array of must-have features:

- AutoEnergy saver senses you're away and adjusts operating cycles to reduce unnecessary usage.
- FrostGuard™ technology reduces freezer burn
- TurboCool™ feature cools the refrigerator after frequent door openings
- Sensor technology monitors temperatures constantly for accuracy and consistency.

### GE refrigerators provide must-have features

#### **GE K-Series**

# K-Series is now expanded with great new features

- ENERGY STAR®-qualified
- CleanTouch handles
- External controls with actual temperature display
- Integrated shelf support system
- Multi-flow air tower
- Dome light
- Low profile hinges
- Dispenser child lock, door alarm and Ouick Ice™
- Slide-out, spillproof shelves
- QuickSpace<sup>™</sup> shelf
- Integrated Ice™ system
- Freshness Center<sup>™</sup>

### **GE O-Series**

# Q-Series is now the heart of GE's side-by-side line

- ENERGY STAR-qualified
- CleanTouch handles
- External controls with actual temperature display
- Integrated shelf support system
- Multi-flow air tower
- Dome light
- Low profile hinges
- Dispenser child lock and door alarm
- Slide-out, spillproof shelves
- Adjustable humidity crispers
- SmartWater™ Plus filter (1 yr./500 gal.)
- Available in 23 and 25 cu. ft. capacities

#### **GE J-Series**

# J-Series is now loaded with extra features

- ENERGY STAR-qualified
- CleanTouch handles
- External temperature controls
- Adjustable humidity crispers
- Snack pan
- Dispenser child lock
- Slide-out, spillproof shelves
- SmartWater filter (6 mos./350 gal.)
- Available in 23 and 25 cu. ft. capacities
- Available in all colors

### Dare to compare

### ClimateKeeper2<sup>™</sup> system

- Allows fresh foods to retain the higher moisture levels that keep them at their peak longer
- Fresh foods deteriorate as they lose moisture, becoming dry and unappealing
- Fresh foods last longer at higher relative humidity levels than are produced by single-evaporator systems

### Compare for yourself these are not the same!

### GE Profile™ P-series includes:

- ClimateKeeper2<sup>™</sup>
- Electronic beverage center
- PreciseFill technology
- Integrated dispenser
- Sculptured stainless steel handles
- 3 full-extension freezer baskets
- Integrated Ice<sup>™</sup>

# • QuickSpace<sup>™</sup> shelf

- TurboCool™
- AutoEnergy saver
- Contoured doors (without a cap)
- FrostGuard<sup>™</sup> technology
- GE Reveal<sup>™</sup> lighting

### Whirlpool® model includes:

New dispenser

- Fast Fill™
- Rotating faucet
- Slide-out dispenser tray

### GE offers the most complete stainless exterior line-up!

Choose options such as stainless-wrapped models, stainless trim, integrated stainless, and true stainless sculptured handles.

### Show and tell

### ClimateKeeper2<sup>™</sup> system

**Show** your customers how the cold, dry freezer air in a conventional system pulls the moisture out of bologna slices. After five days, the bologna slices lose their shape, appear leathery and unappetizing and are ready to be discarded.

**Tell** your customers how bologna slices remain moist, smooth and uniform in color after five days in the ClimateKeeper**2** system.

Use Pub. No. 2-X095 for additional examples of food test.

### PreciseFill technology

**Show** your customers how easy it is to select measured amounts of water by simply pressing a button.

**Tell** them first to push the button to select whether they want to measure by ounces or cups. Then they press the up or down button on the left side of the display to select whole-ounce or whole-cup amounts. The button on the right is used to select fractions of a cup.

#### Demo mode

Activate the demo mode function by simultaneously pressing the fresh food WARMER pad and the freezer COLDER pad for three seconds located on the upfront internal controls. To exit demo mode, turn the unit off by unplugging refrigerator. Plug the refrigerator back in after one minute. While in demo mode, demonstrate CustomCool™, PreciseFill and electronic beverage center features.

### Exclusive CustomCool™ technology—It chills. It thaws. It preserves!

Show your customers how to select the ExpressChill™ option of 15, 30 or 45 minutes by pressing the electronic CustomCool pad repeatedly.

**Tell** your customers how quickly this option allows them to chill beverages for game day or wine for unexpected company.

**Show** your customers how to select the **ExpressThaw**<sup>™</sup> options for thawing 1/2 pound, one pound, two pounds and three pounds of meat by pressing the electronic CustomCool pad.

**Tell** your customers how they can conveniently thaw frozen meats safely even when they're not home. The meat stays refrigerated until they're ready to cook.

Show your customers how to select the SelectTemp™ options for citrus (43°F), produce (35°F) and meat (31°F) by pressing the electronic CustomCool pad.

**Tell** your customers how they can protect their favorite foods at the recommended temperature to keep those foods fresh, longer.

### Available new models

### GE® J-Series

- Offered in 22 and 25 cu. ft. capacities
- External electronic temperature controls with child lock
- Adjustable humidity crisper
- Adjustable temperature deli drawer
- Snack pan
- Adjustable gallon door bins
- Adjustable slide-out, spillproof glass shelves
- AutoEnergy saver
- CleanTouch handles
- Available in white, bisque, black, stainless steel and CleanSteel™

### **GE O-Series**

- Offered in 23 and 25 cu. ft. capacities
- External controls with actual temperature display, child lock and door alarm
- In-the-door can rack
- Integrated shelf support system
- Adjustable humidity crispers
- Air tower
- Low profile hinges
- Dome light
- Available in stainless steel, white, bisque and black

### **GE K-Series**

- Offered in 25 cu. ft. capacity
- Freshness Center<sup>™</sup>
- Integrated Ice™ system
- In-the-door can rack
- Adjustable humidity snack pan
- Quick Ice<sup>™</sup> feature
- ClearLook™ gallon door bins
- QuickSpace<sup>™</sup> shelf
- Contoured doors
- Available in white, black and stainless steel

- Offered in 23 and 25 cu. ft. capacities
- Contoured doors
- ExpressChill™
- Slide-out freezer baskets
- TurboCool<sup>™</sup> setting
- Tilt-out freezer door bins
- J beverage rack
- Available in white, black, stainless steel and stainless steel wrapped

### GE Profile™ M-Series

- Offered in 23 and 26 cu. ft. capacities
- ClimateKeeper<sup>™</sup> system
- ExpressChill with three settings
- Electronic temperature controls with actual temperature display
- Adjustable tilt-out freezer door bins
- Full-extension freezer baskets (2)
- Improved lighting
- In-the-door beverage rack
- Sculptured handles
- Available in white, bisque, black, stainless steel and stainless steel wrapped

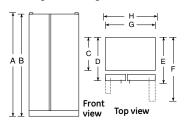

### **GE Profile P-Series**

- Offered in 26 cu. ft. capacity
- ClimateKeeper2<sup>™</sup> system
- PreciseFill technology
- Integrated dispenser with LED lighting
- Electronic beverage center
- CustomCool™ technology with full-extension drawer
- GE Reveal<sup>™</sup> lighting
- Full-extension freezer baskets (3)
- Available in high-gloss, stainless steel and stainless steel wrapped

If installed against a wall, allow clearance of 13-15/16" on freezer side to remove bin. Clearance required to remove fresh food full size pan without disassembling is 18-5/8". ALL MODELS AVAILABLE IN U.S. AND CANADA.

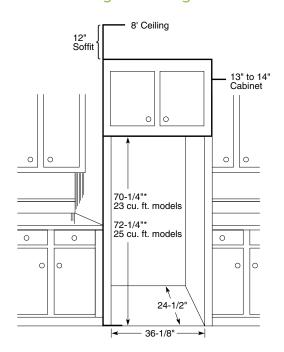

### GE Profile Arctica® and GE CustomStyle™ side-by-side installation information & specifications

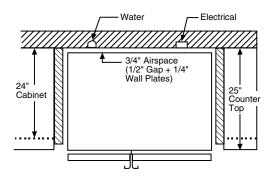

### **Rough-in dimensions**

# Standard, new construction and replacement installation

### Installation tips to maximize the built-in look

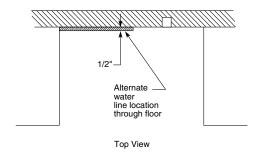

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length, 1/4"-diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet (see local codes).
- Front and rear leveling legs are adjustable for the built-in look (see owner's manual).
- If optional collar trim kit is to be used or anticipated, see collar trim installation on next page for different rough-in dimensions.

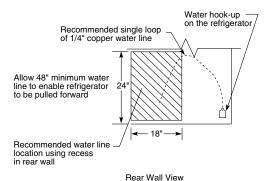

\*The rough-in dimensions of 70-1/4\*/72-1/4\* are minimum and measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4\* (70-1/2\*) to height of opening for 23 cu. ft. models and 1/8\* (72-3/8\*) for 25 cu. ft. models to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

#### Installation of water outlets

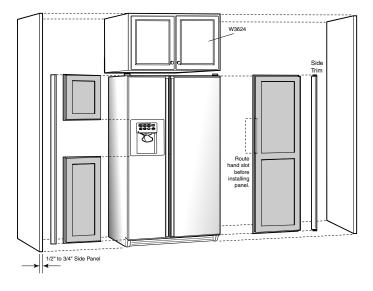

IMPORTANT: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:

• A minimum width of 36" is required for

- A minimum width of 36" is required for refrigerator installation
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

Create a custom look for your GE Profile CustomStyle side-by-side refrigerator

Still another advantage offered by GE Profile CustomStyle Refrigerators is ease of installation. For a refrigerator that does so much to enhance the beauty of your kitchen, the "behind-the-scenes" preparation and installation are surprisingly simple.

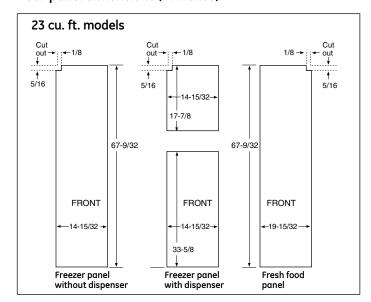

Fabricating the enclosure

- The drawing shows an 84" cabinet elevation. Adjust dimensions accordingly for other cabinet elevations.
- Cabinet pieces to order: (2) side panels and (1) wall cabinet.
- Side panels will typically be attached to adjacent cabinets and/or cleated to rear wall and floor.
- Refer to GE refrigerator installation instructions for proper plumbing, and electrical and air clearances.
- (1) Some framed cabinet lines will make a refrigerator enclosure with a cabinet 12" high x 39" wide with sides and 1-1/2" face frame extended down to floor to create the refrigerator space. This will replace the above construction. (2) A tall cabinet on either side of the refrigerator can replace a side panel.
- Counter overhangs on either side of the refrigerator should have clipped corners to allow for full door swing.
- If the refrigerator has a wall returning beyond the front of the refrigerator on either side, a 2" tall filler will help allow for movement of the door.

#### **Door Panels**

- See drawings for exact dimensions of the fresh-food and freezer door panels.
- Refrigerator door fronts from stock and most semi-custom cabinet manufacturers will be supplied as 1/4"-thick panels cut to dimensions, with closest available standard door sizes applied to front.
- -This will leave a "reveal" at top/bottom and sides. Width of "reveal" will depend on manufacturer's standard door sizes.
- –Door will be affixed on the 1/4" panels at factory or in the field by the local supplier, depending on manufacturer.
- Local shop-built or custom cabinet supplier may fabricate custom 3/4" panels. In this case, edges must be routed.
- Follow notes on drawing to assure room for fingers/hands to open handles.

#### Door panel dimensions (in inches)

#### Order your own custom wood panels to match cabinetry or other decor.

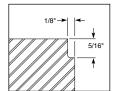

Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

**Weight Limits:** Total weight of panels (i.e., both freezer panels)—Fresh Food = 38 lbs., Freezer = 28 lbs.

**Note:** Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

#### 25 cu. ft. models Cut out Cut out out 5/16 5/16 5/16 14-15/32 69 69 **FRONT FRONT FRONT** -14-15/32 **-**19-15/32 14-15/32-Fresh food Freezer panel Freezer panel without dispenser with dispenser panel

Notch required at top corner as noted.

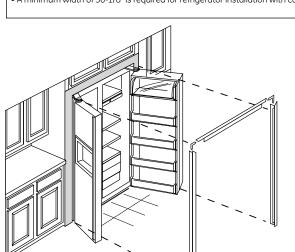

### Collar trim installation

An enclosure is **required** to match up to the trim (see Typical Installation). To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high  $\times$  36-1/8" wide  $\times$  24-1/2" deep for 23 cu. ft. models and 72-1/4" high  $\times$  36-1/8" wide  $\times$  24-1/2" for 25 cu. ft. models, as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.

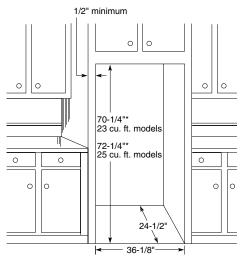

**IMPORTANT:** Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:

• A minimum width of 36-1/8" is required for refrigerator installation with collar

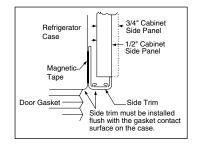

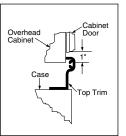

Shaded areas represent front surfaces of side panels and overhead cabinet or soffit that contacts trim.

**Typical Installation** 

\*The rough-in dimensions of 70-1/4\*/72-1/4\* are minimum and measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: if trameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4\* (70-1/2\*) to height of opening for 23 cu. ft. models and 1/8\* (72-3/8\*) for 25 cu. ft. models to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

Power/Rating

\*Color(s) available: SS = Stainless steel, WW = White, WS = White with stainless-look handles, CC = Bisque, BB = Black.

\*\*Width excluding caps is 35-7/8".

| Water hook-up fits in back air clearance when calculating installation depth.

| When cap is removed: 69-1/4".

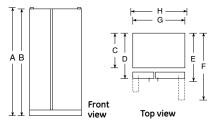

| If installed against a wall, allow clearance of 14-3/16" on 25 cu. ft., 26 cu. ft. and 27 cu. ft. models; 13" on 29 cu. ft. models on freezer side to remove ice bin. To remove fresh food pans, remove door bins.

| Clearances required to remove fresh food full-size pan without disassembling: 18-15/16" on 25 cu. ft., 26 cu. ft. and 27 cu. ft.; 16-1/4" on 29 cu. ft. Allow additional space for any necessary leveling adjustments.

| ALL MODELS AVAILABLE IN U.S. AND CANADA. Energy information available at www.ge.com

Note: Stainless steel side panel accessory (PS26SPLSS) attaches to the side of all GE Profile and GE 23,25,26 and 27 cu. ft. refrigerators.\*

\*Side panel has 1" overhang on back for model GSH25JST.

Power/Ratings

\*Color(s) available: SS = Stainless steel, WW = White, CC = Bisque, BB= Black, CleanSteel = Stainless appearance, CM = Color-Matched.

fWater hook-up fits in back air clearance when calculating installation depth. If installed against a wall, allow clearance of 10-3/4" on 20 cu. ft. and 22 cu. ft. models; 14-3/16" on 25 cu. ft. models on freezer side to remove bin. Clearances required to remove fresh food full-size pan without disassembling: 13-1/2" on 20 cu. ft.; 15" on 22 cu. ft. and 18-15/16" on 25 cu. ft. Allow additional space for any necessary leveling adjustments.
