GE Profile™
Appliances

America's #1 Preferred Appliance Brand

GE is the appliance brand most often mentioned among the brands rated as offering the best products and services in America according to Louis Harris Poll 2002.

Profile™

We bring good things to life.

Intelligence marries beauty.

It's no secret why, year after year, GE is named as

America's #1 **preferred** appliance brand.* That's

because we continue to craft high-quality appliances

that assure your home provides what your lifestyle

demands—appliances like our **award-winning**

GE Profile Arctica™ refrigerator and Advantium™

oven. Sophisticated in appearance, **dramatic**

in performance, these appliances achieve the

perfect balance of **style** and **innovation**.

They function beautifully, both as

appliances and as design elements.

*GE is the appliance brand most often mentioned among the
 brands rated as offering the best products and services in America.
Source: Louis Harris Poll, 2002.

Now, more than ever, GE Profile™ leads the way in dramatic style and innovation.

Innovatively designed inside and out, new GE Profile appliances represent the ultimate in sophistication—not just in terms of style, but also in terms of technology. Bold curves and clean lines make a dramatic statement, while award-winning technology saves time. And special appliance touches like sculptured handles tie everything beautifully together. This combination of high style and performance makes GE Profile appliances the perfect choice for your kitchen, today and tomorrow.

Table of Contents

GE puts everything at your fingertips!

Welcome to the GE Profile Product Guide. The following pages will help you choose from among the many great appliance choices available from GE.

For the complete line of appliances or specific model information not covered in this guide, visit our Web site at GEAppliances.com, contact your local authorized GE dealer, or call the GE Answer Center,® toll-free, 800.626.2000.

The Ultimate in Refrigeration.™

GE Profile Arctica™ refrigerators bring a breath of **fresh**

air to your kitchen and your life. This new line performs on

demand with **innovative** cooling capabilities. It impresses

with its sophisticated, **dramatic** design. And it offers

tremendous **flexibility** through a user-friendly storage

system. What's behind this **breakthrough**?

GE has engineered new refrigerators

to offer exceptional temperature

management, convenience

and **efficiency**.

CustomCool™ technology
Exclusive CustomCool technology gives you the ability to chill and thaw much faster than ever before possible. It also lets you select just-right temperatures for a variety of fresh foods.

ClimateKeeper™ system
Exclusive ClimateKeeper system helps preserve refrigerator contents by providing consistent cooling.

Contoured style
Arctica's clean contours and lines are perfectly compatible with any kitchen setting.

Optimal accessibility
The interior is thoughtfully designed to offer exceptional convenience and flexibility.

GE Profile Arctica refrigerators offer exclusive cooling capabilities, dramatic styling and flexible features.

GE Profile Arctica™ Side-By-Side Refrigerators

Specialized settings let consumers customize cooling for a variety of foods.

GE Profile Arctica side-by-side refrigerators include a number of high-performance capabilities. Perhaps the most notable is our exclusive CustomCool™ technology. A fresh take on cooling, this bottom pan feature offers three settings for different lifestyle needs:

ExpressChill™ setting chills foods and beverages in minutes, not hours.

ExpressThaw™ setting thaws meats and other freezer items in hours, not days.

SelectTemp™ setting allows consumers to select just-right temperatures for specific foods.

Using these specialized settings, consumers are able to avoid the last-minute rush and simply relax. Whether the occasion calls for impromptu hors d'oeuvres for 20 or filet mignon for two, CustomCool takes care of everything.

It chills!

It thaws!

New high-gloss finish provides a look of sleek elegance with a smooth, reflective surface.

It preserves!

Easy access

Slide 'n Store™ freezer baskets extend fully, putting frozen foods within convenient reach. A Slide 'n Store Plus basket is designed to hold taller items such as pizza boxes, and a fold-up divider keeps them securely in place.

Storage flexibility

The addition of one ClearLook™ door bin provides up to 23% more usable storage in the fresh food compartment than prior models. Durable and spacious, bins hold gallon-size containers with ease.

Best Temperature Management System You Can Buy!

Our exclusive ClimateKeeper™ system combines a number of components to provide exceptional temperature management:

• Upfront digital controls are precise and easy to use.

• More electronic sensors than our competitors' systems, and each is positioned for maximum effectiveness.

• Multiflow air system includes more vents than competitors' systems, and it uses exclusive fresh food and variable-speed freezer fans to keep temperatures consistent throughout the refrigerator.

Tall dispenser

The LightTouch! dispenser fills tall orders, accommodating everything from pitchers to blenders. The wide paddle dispenses water and ice at the slightest touch, and a Quick Ice™ feature produces up to 50% more ice than normal settings.

Not all features available on all models.

GE Profile Arctica™ Side-By-Side Models: 29 to 25 cu. ft.

These models include • Contoured doors • ClimateKeeper™ system • TurboCool™ setting • Upfront electronic touch temperature controls • **Digital temperature display** • **CustomCool technology** • FrostGuard™ technology • Beverage rack • Premium quiet design • Integrated shelf support system • QuickSpace™ shelf • Two slide-out, spillproof glass shelves • ClearLook™ adjustable door bins • Gallon door storage • **Slide 'n Store™ full-extension freezer basket** • **Slide 'n Store Plus freezer basket** • Tilt-out wire freezer door bins • Contoured Profile handles • **Tri-level lighting** • NeverClean™ condenser

GE Profile Arctica™ Top-Freezer Refrigerators

Top Performance.

Elegant, curvaceous design graces Arctica top-freezer refrigerators, which are distinguished by radius doors and rounded storage bins.

Arctica's performance is even more dramatic. The innovative ClimateKeeper™ system adapts to levels of activity and location, keeping the temperature on an even keel.

Arctica top-freezers not only provide precise temperature management, but they also offer optimal ease and accessibility.

Adjustable storage bins put all contents within convenient reach, while the dual fresh food lighting system and freezer dome light let you fully satisfy your midnight cravings.

Stunningly styled inside and out, the GE Profile Arctica top-freezer refrigerators give you a brand-new way to enhance your kitchen.

ONLY GE HAS IT!

Rapid recovery
Exclusive ClimateKeeper system quickly recovers from such variables as frequent door openings and changes in external temperature.

ONLY GE HAS IT!

Freezer innovation
Exclusive FrostGuard™ technology reduces freezer burn.

GE Profile Arctica™ Top-Freezer Models: 25 to 22 cu. ft.

These models include • **Upfront electronic touch temperature controls** • **ClimateKeeper™ system** • FrostGuard™ technology • **Premium quiet design** • **ShelfSaver™ rack** • **Lift-off, slide-out, spillproof glass shelves,** four adjustable/split • Two adjustable humidity vegetable/fruit crispers • **Adjustable temperature deli pan** • Pivot-out pan removal system • One full-width, fixed tall bottle door bin • **ClearLook™ adjustable gallon door bins** • Equipped for optional electronic icemaker • Spillproof freezer floor • Tilt-out locking freezer door bin • Dual-level lighting • NeverClean™ condenser   **Note: bold = feature upgrade from previous model**

Convenient upfront electronic touch temperature controls are extremely accurate, easy to see and easy to set.

Pivot-out pan removal system makes cleaning crispers easier than ever.

ONLY GE HAS IT!

Locking tilt-out freezer bin conveniently tilts forward for easy access to items stored inside.

Seamless spillproof freezer floor design makes freezer cleanup simple!

Award-winning technology takes on a whole new look.

Since its introduction in 1999, the GE Profile Advantium™

oven has won numerous awards for its innovative

Speedcook technology. Harnessing the power of light,

it does what no other oven has done before—deliver

delicious results in minutes. Today, Advantium

is commanding attention, not only for its **powerful**

capabilities, but also for its **bold appearance.**

A window framed by two

opposing arcs and a

unique **sculptured**

handle make the

Advantium a stunning

addition to any kitchen.

It's the perfect

second oven.
Speed performance
Imagine the luxury of preparing a salmon steak in less time than it takes to set the table. Or the convenience of baking potatoes in four minutes with the press of a button. This is the extraordinary capability of Advantium Speedcook technology.

Oven-quality performance
Advantium ovens cook amazingly fast, with great-tasting results. Foods not only cook faster with light, but they also retain their natural juices, moisture and flavor.

Versatility
Advantium ovens let you prepare oven-quality meals you never dreamed of cooking during the week. They bake, broil, brown, roast and grill, with no preheating. And, for added time savings, they convert to microwave ovens.

Installation flexibility
The Advantium wall oven can be installed by itself, over a traditional wall oven or over a warming drawer. The Advantium above-the-cooktop ovens can be conveniently located over a counter, range or cooktop.

GE Profile Advantium™ Ovens

Great-tasting food up to eight times faster!*

Providing the technology you need when time is of the essence, the Advantium oven proves that faster is better.

The Advantium oven harnesses the energy of light to deliver great-tasting food in mere minutes. Its revolutionary Speedcook technology bakes, broils, browns, roasts and even grills food, with no preheating. It's the ideal second oven!

Between meals, it provides a striking and stylish look. Dramatic curves and clean lines make a bold statement, and the sculptured handle enhances the oven's overall appearance.

*Compared to a conventional oven.

Favorite foods cook in minutes. Compare the Advantium oven to a conventional oven.

Food	Advantium Oven	Conventional Oven
Whole Chicken	20 minutes	119 minutes
Whitefish Fillets	3-1/2 minutes	38 minutes
Crescent Rolls	4-1/2 minutes	18 minutes
Chocolate Chip Cookies	4 minutes	16 minutes
Baked Potatoes	10 minutes	83 minutes
Pepperoni Pizza	5-1/2 minutes	23-1/2 minutes

Speedcook technology harnesses the power of light to cook foods up to eight times faster than a conventional oven. And there's no preheating required.

The Advantium oven delivers great-tasting food, fast. Rolls are browned to golden perfection in 4-1/2 minutes. And filet mignon is moist and flavorful within 6 minutes.

The revolutionary Advantium oven comes preprogrammed with more than 100 of your favorite dishes. With the easy-to-use controls, just select your dish, press start and get ready to eat.

Cooking at home costs less—less than restaurant food, less than gourmet carryout. And no preheating and shorter cook times mean more time with family.

GE Profile Advantium™ 120 Ovens

Great-tasting food up to four times faster!*

Introducing the latest in GE Speedcook innovation: the GE Profile Advantium 120 oven. Unlike conventional ovens that take their own sweet time, the Advantium 120 cooks with light to deliver great-tasting meals in minutes. Combining speed and versatility, the Advantium 120 oven helps you rediscover the joy of cooking!

This oven offers revolutionary Speedcook technology, along with traditional oven, microwave and warming capabilities. It cooks up everything from pizza to peach cobbler—fast!

*Compared to a conventional oven.

Favorite foods cook in minutes. Compare the Advantium 120 oven to a conventional oven.

Food	Advantium 120 Oven	Conventional Oven

Insiprational cooking through innovation.

GE helps you make the most of your meals, bringing

innovation to every aspect of your cooking needs. Our

cooking products cater to your requirements with a wide

range of heat settings and smooth, **easy-to-clean**

surfaces. They also make a high-performance

contribution with **advanced** cooking capabilities

and an array of **convenience**

functions. And when it comes

to style, GE offers a variety

of **attractive** options.

Whether you choose

black or stainless, built-in

or slide-in, you're sure

to find the perfect

complement to your decor.

Gas cooktops
Our gas cooktops feature 15,000 BTUs of cooking power, delivering incredible cooking flexibility with an 11,000-BTU, a 9,100-BTU, and a 6,000-BTU burner for simmering.

Electric cooktops
Our electric cooktop line gives you a vast array of versatile options. Expandable heating elements, electronic controls and a warming zone are just a few of the many conveniences.

Built-in wall ovens
Built-in wall ovens make a dramatic design statement. Installed in a wall, under a counter or in a cabinet, these ovens integrate beautifully into any kitchen.

Warming drawers
GE's essential warming drawer helps you keep just-cooked foods warm while you're waiting for guests or preparing other dishes.

GE Profile™ Built-In Single and Double Wall Ovens

GE Profile wall ovens perform beautifully in any kitchen.

GE Profile wall ovens have improved upon true European convection with the Precise Air™ convection system, which uses an innovative fan that reverses direction. The result is uniform heating throughout the oven interior for superior cooking results.

The largest* oven capacity in America and multiple rack positions give you the flexibility to cook more food at once. Among the many convenient features is the proof mode for rising dough, Sabbath mode for preparing foods in accordance with kosher law, warm mode for keeping foods at serving temperature and the option of closed door broiling.

*Among leading manufacturers' brands, except 30" convection ovens.

The versatile design works with every cooking style and every kitchen.

Versatility extends to installation, as well. GE wall ovens go wherever they are needed: in a wall, cabinet or under a counter. These wall ovens fit into common cutouts, making it easy to upgrade or replace an older GE wall oven. And the flush installation appearance makes the most of your kitchen space.

Not all features available on all models.

GE Profile™ Wall Ovens

GE flexibility gives you more ways to cook great food!

Largest capacity

GE wall ovens now feature the largest* capacity wall ovens in America. Great for holiday meals and dinner parties, you have the flexibility to cook more food at once!

Conventional Baking

Conventional Broil (variable temp)

Convection Bake

Convection Roast

Convection options

GE Profile wall ovens use true European convection, now delivered through the Precise Air™ convection system. Meats are beautifully browned, yet tender and juicy inside and breads and desserts are baked to golden perfection.

Precise Air convection system

This exclusive system uses an innovative fan that rotates one way, then reverses direction for optimal air and heat circulation. Plus, a third heating element surrounds the fan and delivers consistent heat.

PROBE

Auto Recipe™ conversion

Auto Recipe eliminates guesswork by automatically converting standard recipe temperatures to proper convection settings. Simply set the control according to recipe instructions and the oven automatically adjusts for convection baking.

*Among leading manufacturers' brands, except 30" convection ovens.

Not all features available on all models.

The maximum in cooking performance and versatility.

Heavy-duty racks
The durable construction of the heavy-duty racks provides additional support for large cooking needs.

Eight-pass bake element**
With eight turns of the powerful heating element, heat is distributed more evenly, providing complete coverage throughout the oven cavity.

Innovative design
The glass touch controls, combined with a digital timer and large easy-to-read graphics, offer a clean and sophisticated design. The frameless oven aligns nearly flush with cabinetry for a smooth and integrated look.

Multiple cooking modes
A variety of flexible cooking modes help make cooking convenient. The proof mode raises dough properly. The warm mode keeps meals warm and ready to serve. And the certified Sabbath mode keeps food warm in accordance with kosher law.

**Six-pass on 27" models.

GE Profile™ Built-In Double Ovens: 30" Electric

These models include • Flush appearance installation • Fits most 30" cabinets • TrueTemp™ system • Control lock capability • Exclusive Big ClearView™ windows • Optional closed door broiling • Convection cookbook   **Note: bold = feature upgrade from previous model**

Precise Air™ convection uses an innovative fan that reverses direction for optimal air and heat circulation.

Eight-pass power bake exemplifies the ultimate in heating performance with complete coverage.

CleanDesign oven interiors have a smooth seamless surface, making cleanup easier than ever.

The largest* capacity wall oven in America gives you flexibility to cook more at once.

GE Profile™ Built-In Cooktops

GE caters to today's busy cooks with a wide variety of cooktop options.

GE cooktops make a dramatic difference in the kitchen, both in terms of appearance and performance.

Distinguished by a continuous, smooth surface, these cooktops add immediate visual interest. High-tech features include an electronic sensor that automatically adjusts the size of the element to fit the pan, a sensor that indicates when an element is left on and a convenient warming option.

Now you can enjoy the superior performance of gas, along with ease of cleaning.

Thanks to GE innovation, serious cooks can make gas cooktops a prominent part of their kitchens without the usual worry about cleanability. High-output or simmer burners give you precise control over heat intensity, while the smooth, sealed surface beneath these burners lets you control spills and messes. Professional-style continuous burner grates allow easy pot movement. And every model wipes clean, whether it's the deep recessed cooktop or the gas-on-glass style.

Not all features available on all models.

Electric cooktops offer an array of convenient extras.

Among these is the bridge element, which combines two elements to create an elongated cooking area. Models with electronic controls also feature a cooking timer and lockout option.

Gas cooktops provide outstanding performance.

When it comes to power, our gas cooktops go to extremes. The 15,000-BTU burner supplies the intense heat needed for sautéing and stir-frying. Gas cooktops also provide precise temperature control and consistent, gentle simmering.

GE Profile™ Built-In Cooktops: 36" Electric CleanDesign

These models include• Smooth, frameless ceramic-glass CleanDesign cooktop • Fingerprint- and scratch-resistant patterned glass cooktop • Five hot surface indicator lights • Flush mount installation capability (except Stainless steel models)

Note: bold = feature upgrade from previous model

Electronic controls are simple to understand and easy to operate. Just read and touch.

Pan presence sensor reminds you when an element is left on and automatically shuts it off when not in use.

Helps protect your family's safety with control lockout capability.

A convenient kitchen timer lets you set a reminder at the appropriate cooking time, making precision cooking easy.

Not all features available on all models. For additional features, specifications and color availability, refer to page 93.

GE Profile™ Slide-In and Drop-In Ranges

The perfect fit.

GE slide-in and drop-in ranges fit every kitchen decor and cooking style. They install almost flush with surrounding cabinetry and counters, creating a dramatic effect. Accenting the contemporary design is the sleek stainless exterior, which complements just about any color or wood finish. The performance features are equally versatile.

GE slide-in and drop-in ranges give the effect of added space, opening up kitchens and making them more inviting.

Versatile features are the key ingredients to our slide-in and drop-in ranges.

Precise Air™ convection
This exclusive system uses an innovative fan that rotates one way, then reverses direction for optimal air and heat circulation. Plus, a third heating element surrounds the fan and delivers consistent heat for True European convection.

Cooktop Versatility
Innovative heating elements make cooktop cooking easy. Combine two separate elements into one large bridge element, adjust a dual element to 6" or 9", or use a convenient fifth warming element for keeping foods warm and ready to serve.

Electronic control panel
The electronic control panel is innovatively styled with glass touch controls, a digital display and sleek, easy-turn dials. Plus, it's ergonomically angled for optimal, user-friendly operation.

Sealed burners
The gas burners are sealed to the cooktop to help contain spills, making cleanup quick and easy. These burners ignite electronically, so you don't have to deal with troublesome pilot lights. Power options range from low simmer to high output.

Not all features available on all models.

These models include • TrueTemp™ system • **Big ClearView™ window • Four hot surface indicator lights • Fingerprint- and scratch-resistant patterned ceramic-glass CleanDesign cooktop • Optional closed door broiling • Extra-large self-clean oven with Delay Clean option •** Control lock capability • Custom built-in look with simple slide-in installation   **Note: bold = feature upgrade from previous model**

Bridge element for total cooking flexibility.

The warming zone is a great way to keep food warm and ready to enjoy or melt butter or chocolate.

Fast and easy cleanup is made possible through our CleanDesign oven interior.

Optional backguard kit attaches to the back of range when unit is installed into a free-standing cutout.

Extremely versatile, incredibly accurate GE ranges.

GE Profile™ electric ranges present a number of exciting

possibilities. The cooktop offers tremendous **flexibility**

with a warming option and expandable heating elements.

GE **TrueTemp™** technology provides maximum oven

control. This technology helps keep the temperature

uniform throughout the oven cavity. If it's cooking

space you crave, you're in

for a big surprise!

The **5.0 cu. ft.** oven can

accommodate an impressive

quantity of food. And **adjustable**

racks positions make room for all

kinds of cookware, from roasting

pans to casserole dishes.
Warming zone
Keep food warm and ready to
enjoy with this new fifth element,
conveniently placed in the rear
center of the cooktop.

Self-clean heavy-duty oven racks
Clean your oven and the racks! Made
from the same material as the oven
interior, these new racks can remain in
the oven during the self-clean mode.

Big ClearView™ window
Now you don't have to
open the oven door to
check the progress of your
food. The new window is
extra-large and see-through.

Capacity
The extra-large capacity oven, featuring
six adjustable rack positions, gives you
the flexibility to cook more at once.

31148

GE Profile Spectra™ Electric Ranges

For most families, 80% of the cooking is done on the cooktop. You can see at a glance just how easy it is to wipe the smooth ceramic-glass cooktop clean.

Ceramic-glass cooktop.

Responsive.

GE electric ranges have convenient features to help you cook quickly and coordinate with ease. The new warming zone adds a fifth element to the center of the cooktop, so you can keep foods warm and ready to serve. Add the bridge element and dual 6"/9" element and you have a cooktop rich in features made to fit your lifestyle.

Attractive and practical.

When it comes to impressive style and the ability to clean with ease, GE has it all. The new control panel has a redesigned appearance that is elegant and attractive. It features smooth, glass-touch controls that are easier to wipe clean. You also have expanded "true" color choices for the cooktop—a graceful touch to any kitchen.

The porcelain-enameled subtop is designed with special containment wells for easy cleanup. Wires have been thoughtfully positioned under the edge of the cooktop so they never interfere with cleaning.

Clean-Well™ cooktop.

Exclusive design.

The Clean-Well cooktop is yet another GE innovation. It consists of two layers, including the cooking surface and a subtop. The surface is designed to contain most spills before they reach the subtop. High rims around the Calrod® elements catch spills, and the one-piece drip bowls are easily removed.

Sturdy and convenient.

The exterior cooktop is supported by a torsion bar and dual-support rods. To access the recessed subtop, all you have to do is lift and lock the cooktop into place. It's that simple.

Not all features available on all models.

True European convection capability lets you cook bigger and better than ever before.

Our convection ranges deliver "True European convection" cooking by means of a third dual-loop heating element located in the back wall. A fan evenly circulates air throughout the oven cavity. This process delivers uniform, savory results.

Superior roasting.
Convection cooking has long been praised by professional chefs and bakers. And it's no wonder. Roasting time is reduced, with more consistent results.

Perfect baking.
GE convection ovens also deliver exceptional baking results. They bake desserts and breads to golden perfection.

A simple guide to GE's QuickSet oven controls

QuickSet IV
• Dual Element Bake • Digital temperature display with recall • Oven preheat light • Electronic digital clock
• Electronic reminder timer, up to 12 hours • Audible Preheat signal • 12-Hour automatic oven shut-off
• Self-clean countdown digital display, including cool down • Auto self-clean • Automatic oven control • Delay Bake • Delay self-clean • Adjustable self-clean cycle time • All touch pad control • Large digital temperature display • Variable broil

QuickSet V
Same as QuickSet IV, plus: • Convection bake/roast • Temperature probe • Extra-large graphics and touch pads
• Digital glass touch pad control (0-9) entry • Oven function icons

GE Profile™ CleanDesign: Convection

These models include • The most dependable ranges you can buy! • Super-large 4.5 cu. ft. capacity oven • TrueTemp™ system • **True European convection oven with dedicated third, dual-loop heating element • Convection bake • Convection roast • Warming zone** • Dual element bake • Six-pass power bake element • Electronic oven controls • Certified Sabbath mode • Electronic digital clock • Easy-view hot lights • One-piece upswept cooktop • Ceramic-glass cooktop • Automatic self-clean oven latch • **Three oven racks, one off-set** • Automatic oven light/pad • Big ClearView™ window • Storage drawer • Four leveling legs   Note: bold = feature upgrade from previous model

True European convection delivers consistent heat, cooking foods to absolute perfection.

TrueTemp system provides even heat distribution and maximum oven control.

Self-clean heavy-duty oven racks are designed for hands free cleaning.

CleanDesign oven interior has a smooth seamless surface, making cleanup easier than ever.

N

o matter what's on the menu, GE gas ranges are sure to delight.

GE Profile gas ranges give you the room and **power** you

need to create inspired meals. These ranges feature a

large-capacity oven, so every dish, every cookie sheet,

every Thanksgiving turkey is an easy fit. They also include

convenient warming options and convection capability.

And you'll be pleased to know

that you can enjoy the

superior **performance**

of gas, as well as **easy cleanup**.

Designed with a smooth surface

and continuous **cast-iron grates,**

GE gas ranges offer

tremendous **flexibility.**

Convection gas and dual-fuel ranges—GE's first!
These ranges utilize an innovative, convection system that works in conjunction with our TrueTemp™ system to deliver delicious baking and roasting results.

Smooth cooktop
This revolutionary cooktop eliminates the burner bowls and drip pans typically found on traditional gas ranges. Instead, the burners are sealed onto the cooktop, making cleanup a breeze.
Warming options
A warming zone and warming drawer save you the trouble of carefully orchestrating meals. These convenient options let you keep just about any dish warm and ready to enjoy.

Warming drawer
The warming drawer lets you prepare side dishes at your own pace. Conveniently located under the oven, this drawer keeps food warm until serving.

GE Profile™ Self-Cleaning: Sealed Burners

The revolutionary smooth cooktop—changing the way you cook with gas.

The warming zone is a great way to keep food warm and ready to enjoy.

Convection ovens—GE's first.

ONLY GE HAS IT!

TrueTemp system provides even heat distribution and maximum oven control.

A better, more beautiful Spacemaker® oven.

Just like the original Spacemaker microwave oven,

new GE Profile™ Spacemaker ovens combine **remarkable**

performance and convenience—all in one compact

design. With up to **1100 watts of power** and **1.8 cubic**

feet of capacity, these ovens allow you to cook and

reheat with ease. And now, in addition to much-needed

speed and space, they offer a **beautiful look.**

A hidden vent, an **arced**

window and a

sculptured handle

make new Spacemaker

ovens more stylish

than ever.

Exclusive CircuWave™ 1100 cooking system
New CircuWave system delivers 1100 watts* of output power to provide a more even distribution of heat, minimizing cold spots. It's our most powerful microwave cooking system, ever!

1 lb. Quick Defrost
Convenient setting lets you thaw a pound of ground meat up to 50% faster than our previous models. What used to take 6-1/2 minutes now defrosts in just 3 minutes.

Timesaving technology, spacesaving design
For more than 20 years, the Spacemaker microwave oven has been an indispensable part of the American kitchen. With its many innovative features and compact design, this award-winning oven is designed to save precious time and space.

hard it's working. The true beauty of the

GE Profile dishwasher is that its **style** and

performance will get noticed—quietly.

The leading edge of kitchen design
GE Profile has created the only dishwasher with a full-length contoured door, as well as the industry's only full wrap stainless steel door. Inlaid light-touch controls provide a smooth, seamless appearance.

Our dishwasher is very accommodating
With room for up to 16 place settings, the GE Profile dishwasher's Tall-Over-Tall towerless rack design provides additional room for dishes, as well as tall items.

Engineered for quiet
The GE Profile dishwasher is designed to be quiet. Thinstall™ insulation and mastic cushion the dishwasher, while the ActiveVent II system seals in sound during the wash cycle.

Premium performance, clean and simple
The ExtraClean wash system has three direct-feed wash arms for 100% coverage. The self-cleaning ExtraFine filter removes food particles smaller than 1/100th of an inch.

GE Profile™ Built-In Dishwashers

These models include • ENERGY STAR®-qualified • ExtraClean™ wash system • ExtraFine™ filter • ExtraClean™ sensor • Automatic temperature control • Inlaid light-touch electronic controls • Squeeze latch • Last cycle memory • NSF-certified anti-bacteria cycle • Cookware cycle • China/ Crystal cycle • SpeedCycle™ selection • Added heat enhancement • Child lock option • Automatic HotStart™ feature • Tall-Over-Tall™ nylon rack system with CleanTip™ tines • Super capacity three-piece modular silverware basket • QuietPower™ IV sound insulation package with Thinstall™ insulation and mastic • QuietPower™ motor • ActiveVent II system • Trimless design • Multi-wattage heating element   **Note: bold = feature upgrade from previous model**

Certified to exceed ENERGY STAR guidelines for energy efficiency.

ONLY GE HAS IT!

Tall-Over-Tall towerless rack design accommodates tall items like 9-1/4" glasses in the upper rack and a 20-quart stock pot in the lower rack—no adjustment required.

ONLY GE HAS IT!

The ExtraClean sensor design continually monitors every cycle and adjusts for water soil content, water temperature, wash cycle length and the amount of water needed to clean dishes efficiently.

The ExtraClean wash system has three direct-feed wash arms to clean every spot on every dish.

NSF NSF Protocol for sanitization and
cleaning performance of household
spray-type dishwashers. (1997)

A bigger, faster, gentler way to do laundry.

For consumers facing the challenge of laundry overload,

GE offers the perfect solution. The new GE Profile™

stainless steel wash system combines two innovative

systems in one to make laundry—and life—easier than

ever. The **Perfect Wash™ system** includes a king-size

stainless steel tub and a variable speed motor to clean

and care for different loads and fabrics.

The **Perfect Dry™ system** uses two

thermistors to maintain even heat for

better results. And the dry system

keeps pace with the wash system,

so there's **no more waiting**

between loads.

King-size, 3.5 cu. ft. stainless steel tub— GE's largest capacity washer!
Large stainless steel tub washes more clothes per load, which means fewer loads per week. And that means less time doing laundry.

Variable speed motor with high spin speed.
The electronically controlled motor rotates the tub as fast as 800 revolutions per minute min. to remove more moisture from clothes, saving time and energy, by reducing dry times. It offers a total of five wash and seven spin speeds, including our Ultra Handwash cycle— America's Gentlest Agitation™!

King-size stainless steel drum
Our durable, spacious drum is designed to handle king-size items. It resists rust, won't chip or peel, and there are no rough edges to snag fabrics.

ONLY GE HAS IT!

GE Profile Dual Thermistor
9° Temperature Variance

Competitor's Thermostat
48° Temperature Variance

Dual electronic thermistors
Instead of using a thermostat, the new Perfect Dry system uses a dual-thermistor sensing system to ensure that the level of dryness is right for the load. The heat never shuts off, so clothes are dried evenly and cycle times are shorter. For most loads, wash and dry times are matched.
GE Profile™ Washers and Dryers

GE Profile washers and dryers handle all clothes with utmost care, from the heaviest cottons to the finest delicates.

Excellent wash results are achieved with our Variable Speed Motor, which offers multiple wash/spin speed combinations. At the delicate end of the spectrum, the Ultra Handwash cycle simulates handwashing for less tumbling and more tender clothing care. It's America's Gentlest Agitation™!

Washer Features

As an Energy partner, GE has determined that the WPRB9220C, WHSB9000B and WHSB8000B meet the ENERGY STAR® qualified guidelines for energy efficiency.

Ultra Handwash is ideal for clothes that require extra-special treatment, it simulates handwashing by starting at a low speed to loosen soil and stains, then alternating with periods of soaks.

Dryer Features

Delicate cycle with extra-low heat setting maintains an average fabric temperature of 125°F, the lowest temperature available. It helps protect fine garments from shrinkage and wear.

Sensor Damp Dry option automatically stops the dryer when clothes reach a moisture content level of approximately 17%. Allowing you to hang-dry selected items.

These washers include • Fully electronic one-touch operation • Adaptive Logic™ System • GentlePower™ agitator • Bleach dispenser • Fabric softener dispenser • PerfecTemp Plus wash system • Power Rinse™ • Second Rinse • Cycle Countdown • Exclusive Auto Balance Suspension System   **Note: bold = feature upgrade from previous model**

GE Profile™ Front-Loading Washer and Dryer

Stack Installation
WPXH214A shown with DPXH46EA/DPXH46GA
(stacking kit included with dryer)

The solution to a tight situation.

The stackable washer and dryer pair has a unique configuration that eases its way into any situation, whether it's a hallway or a closet. And wherever it is—out of the way or out of sight—this laundry pair gives you the capacity you need to finish the laundry in minimal time.

Built-In Installation
WPXH214A shown with DPXH46EA/DPXH46GA

Washer Features

Automatic Water Fill eliminates guesswork and water waste. Automatically adjusts to the load type by adding water. Water fill level remains below the door.

Automatic Dispenser automatically dispenses detergent, bleach and fabric softener at just the right time in the wash cycle.

Dryer Feature

Dryer Rack
The sturdy Dryer Rack is designed to dry items such as washable sneakers and stuffed animals, and is easy to insert and remove.

*Color(s) available: BS = Black case with stainless steel doors, WW = White on white, CC = Bisque on bisque, BB = Black on black.
**Width including caps is 36-3/16".
Add 9/16" for water hook-up. Hook-up fits in 5/8" back air clearance when calculating installation depth.
If installed against a wall, allow clearance of 14-3/16" on 25 cu. ft., 26 cu. ft. and 27 cu. ft. models; 13" on 29 cu. ft. models on freezer side to remove ice bin.
To remove fresh food pans, remove door bins.
Clearances required to remove fresh food full-size pan without disassembling: 18-15/16" on 25 cu. ft., 26 cu. ft. and 27 cu. ft.; 16-1/4" on 29 cu. ft.
Allow additional space for any necessary leveling adjustments.
ALL MODELS AVAILABLE IN U.S. AND CANADA.

Optional Trim Kits

30" Deluxe Trim Kit For
2.1 cu. ft. Microwave Ovens

This trim kit allows for built-in installation of the 2.1 countertop microwave oven in a wall or cabinet alone, or over a GE 30" single electric wall oven.

30" Deluxe Trim Kits For
Model JE1860

JX2130SF—Stainless steel
JX2130WF—White
JX2130CF—Bisque
JX2130BF—Black

27" Deluxe Trim Kit For
2.1 cu. ft. Microwave Ovens

The 27" deluxe trim kit allows a 2.1 countertop microwave oven to be built into a wall or cabinet alone, or over a GE 27" single electric wall oven for a complete one-piece built-in integrated appearance.

27" Deluxe Trim Kits For
Model JE1860

JX2127SF—Stainless steel
JX2127WF—White
JX2127CF—Bisque
JX2127BF—Black

Deluxe Trim Kits For
1.5 cu. ft. Microwave Ovens

Built-in trim kits allow installation in a wall, cabinet alone, or over a GE 30" or 27" single electric wall oven. Use a convection wall oven under these convection microwave ovens for a complete convection cooking center.

30" Deluxe Trim Kits For
Model JE1590

JX1530CSC—Stainless
JX1530CWC—White
JX1530CCC—Bisque
JX1530CBC—Black

27" Deluxe Trim Kits For
Model JE1590

JX1527CSC—Stainless
JX1527CWC—White
JX1527CCC—Bisque
JX1527CBC—Black

Built-In Trim Kit For
1.0 cu. ft. Microwave Oven

For a custom built-in appearance, this kit allows built-in installation of the Spacemaker II™ microwave oven into a wall or cabinet alone, and is U.L.-approved for installation over a GE single electric wall oven. This kit should not be installed over a gas wall oven.

Trim Kits for Model JEM31
