

# JVM1441BH/CJ/SH/WH GE Spacemaker® 1.4 Cu. Ft. Capacity Over-the-Range Microwave Oven with Recirculating Venting

## Dimensions and Installation Information (in inches)

**Note:** Requires 120V grounded outlet. Electrical receptacle must be located in cabinet above Spacemaker microwave oven. No additional wiring, venting or cabinet rebuilding necessary in many cases. Complete detailed, easy-to-follow installation instructions and convenient full-size templates are packed with the Spacemaker microwave oven.

**Important Information:** When installing the Spacemaker microwave oven over a range, allow minimum of 2" from bottom of Spacemaker microwave oven to top of range backguard to allow for removal of light covers.

**Ventilation Options:** The Spacemaker microwave ovens are designed for adaptation to the following three types of ventilation:

- Outside exhaust (vertical – as shown)
- Outside exhaust (horizontal)
- Recirculating (non-vented ductless – see Filter Kit drawing)

**Installation Information:** This information is not intended to be used for installing unit described. Before installing, consult installation instructions packed with product/kit for current dimensional data.

## Optional Accessories (Available at additional cost)

### Filler Panel kits JX46BL (available at additional cost)

When replacing a 36" range hood, this kit fills in the additional width to provide a custom built-in appearance.

For installation between cabinets only; not for end-of-cabinet installation. Each kit contains two 3"-wide filler panels.

**Filter Kits JX81A-Recirculating Charcoal Filter Kit** To be used when the Spacemaker microwave oven cannot be vented to the outside.
