# *GE Profile*™ and GE® Refrigerators

**The Ultimate in Refrigeration.**™
Rethought. Reinvented. Revolutionized.

*We bring good things to life.*

# The Ultimate in Refrigeration.™

GE Profile Arctica™ refrigerators bring a breath of

**fresh** air to your kitchen and your life. The stylish

exterior makes a **dramatic** statement, and the

multilevel interior makes **versatile** use of every inch

of storage space. In the fresh food compartment,

slide-out shelves simplify loading and unloading. In

the freezer compartment, the ice system is **uniquely**

designed to allow more room for more food.

In addition

to **innovative** storage features,

both compartments offer a range of cooling

capabilities for the ultimate in **flexibility**

and **performance.**

**CustomCool™ technology**
Exclusive CustomCool technology gives you the ability to chill and thaw much faster than ever before possible. It also lets you select just-right temperatures for a variety of fresh foods.

**ClimateKeeper™ system**
Exclusive ClimateKeeper system helps preserve refrigerator contents by providing consistent cooling.
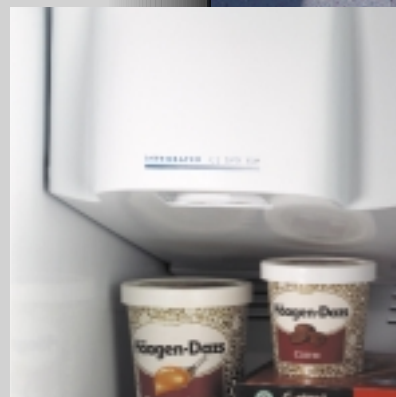

**Contoured style**
Arctica's clean contours and lines are perfectly compatible with any kitchen setting.

**Integrated Ice™ system**
The icemaker and ice bucket are integrated in the freezer cabinet, not the freezer door, to free up valuable storage space. The bucket pulls out and down, providing easy access to cubed ice.

2

*GE Profile Arctica refrigerators offer exclusive cooling capabilities, dramatic styling and flexible features.*

## Specialized settings let you customize cooling for a variety of foods.

GE Profile Arctica side-by-side refrigerators include a number of high-performance capabilities. Perhaps the most notable is our exclusive CustomCool™ technology. A fresh take on cooling, this bottom pan feature offers three settings for different lifestyle needs:

**ExpressChill™** setting chills foods and beverages in minutes, not hours.
**ExpressThaw™** setting thaws meats and other freezer items in hours, not days.
**SelectTemp™** setting allows you to select just-right temperatures for specific foods.

Using these specialized settings, you are able to avoid the last-minute rush and simply relax. Whether the occasion calls for impromptu hors d'oeuvres for 20 or filet mignon for two, CustomCool takes care of everything.

**It chills!**

**It thaws!**

**It preserves!**

*Multiple storage levels and options mean increased flexibility and convenience.*

**It fully extends!**

# GE Profile Arctica™ Side-By-Side Models featuring CustomCool™ technology

***These models include*** • Contoured doors • ClimateKeeper™ system • TurboCool™ setting • Upfront electronic touch temperature controls • Digital temperature display • CustomCool technology with full-extension drawer • FrostGuard™ technology • In-the-door beverage rack • Integrated Ice™ system • SmartWater™ Plus filtration system • Quick Ice™ feature • Water filter indicator light • LightTouch! tall dispenser with child lock and door alarm • Premium quiet design • Integrated shelf support system • QuickSpace™ shelf • Two slide-out, spillproof glass shelves • ClearLook™ adjustable door bins • Gallon door storage • Slide 'n Store™ full-extension freezer basket • Slide 'n Store freezer basket • Tilt-out wire freezer door bins • Contoured Profile handles • Tri-level lighting • NeverClean™ condenser   **Note: bold = feature upgrade from previous model**

Beverage rack is conveniently located inside the refrigerator door to increase flexibility and free up valuable shelf space.

**ONLY GE HAS IT!**

## Installed trim
## Side-by-side models

**Designed for today's discriminating consumers.**

CustomStyle refrigerators with installed trim accept stainless steel or acrylic panels in white, black or bisque, all of which can be ordered from GE. To achieve a custom look, you can order wood panels from your cabinetmaker. You'll discover all kinds of ways to enhance your kitchen.

**Optional Acrylic Panels**
Choose stainless steel panels or acrylic panels in white, bisque or black.

**Custom Wood Panels**
Make and install your own custom wood panels to accent cabinetry.

## Dispenser Models

**PSI23NGP***
Shown with optional black acrylic panels. Available in white, bisque or black.

**PSI23NGP***
Shown with custom wood panels. Available in white, bisque or black.

**PSI23MGP**
Shown with optional white acrylic panels. Available in white, bisque or black.

**PSI23MGP**
Shown with custom wood panels. Available in white, bisque or black.

**PSI23NCP**
Shown with optional white acrylic panels. Available in white, bisque or black.

**PSI23NCP**
Shown with custom wood panels. Available in white bisque, or black.

**Optional collar trim: adding the final touch.**
The optional collar trim is just another way GE lets you integrate our CustomStyle refrigerators into your kitchen decor. Available in stainless steel, white, bisque and black, this trim frames the refrigerator facade, adding to the finished look of a built-in, custom kitchen.
Collar trim: TRMBISSS, TRMBISWW, TRMBISCC, TRMBISBB.

*Others extend up to 33" from wall*

*33"*

*GE Profile CustomStyle extends 26-3/4" from wall*

*26-3/4" saves over 6"*

**Side-By-Side Refrigerators**
Because they install nearly flush with the cabinets, these refrigerators save floor space. They don't stick out into the kitchen!

As an ENERGY STAR® partner, GE has determined that this product meets the ENERGY STAR® guidelines for energy efficiency.

*ENERGY STAR® models PSH23NGP and PSH23SGP also available.

## Trimless
## Side-by-side models

**Installation made easy, simply slide in.**

The trimless CustomStyle units install by simply sliding into—way into—the space between cabinets. CustomStyle refrigerators, because they align with counters, instantly look built-in, and there's nothing to attach or build. (Available in stainless steel, white, bisque and black.)

## Dispenser Models

**PSC23SHP**
Stainless steel with contoured black handles.

**PSC23NHP**

## Top Performance.

Elegant curvaceous design graces Arctica top-freezer refrigerators, which are distinguished by radius doors and rounded storage bins.

Arctica's performance is even more dramatic. The innovative ClimateKeeper™ system adapts to levels of activity and location, keeping the temperature on an even keel.

Arctica top-freezers not only provide precise temperature management, but they also offer optimal ease and accessibility.

Adjustable storage bins put all contents within convenient reach, while the dual fresh food lighting system and freezer dome light let you fully satisfy your midnight cravings.

**ONLY GE HAS IT!**

**Rapid recovery**
Exclusive ClimateKeeper system quickly recovers from such variables as frequent door openings and changes in external temperature.

**ONLY GE HAS IT!**

**Freezer innovation**
Exclusive FrostGuard™ technology reduces freezer burn.

*Stunningly styled inside and out, the GE Profile Arctica top-freezer refrigerators give you a brand-new way to enhance your kitchen.*

# GE Profile Arctica Top-Freezer Models: 25 to 22 cu. ft.

Wine Cooler
**GWR03AAM**
• 2.4 cu. ft. capacity
• Four removable shelves (holds 24 bottles)
• Clear glass door
• Exterior temperature control knob

# GE Profile Arctica™ Bottom-Freezer Refrigerators

## Fresh Food First.

Arctica bottom-freezers are uniquely configured to put fresh foods within convenient reach. Full-width shelves allow easy access to refrigerator contents, and brilliant lighting allows easy viewing of items.

While these new refrigerators put fresh food first, frozen food storage is also given thoughtful consideration. A multi-level storage system gives you tremendous storage flexibility. Also, an Integrated Icemaker™ gives you all the ice—and space—you need.

Both the fresh food and freezer compartments use innovative cooling technology to help preserve foods and conserve energy. In addition to fresh technology, GE bottom-freezers offer a fresh style twist with contoured doors and sculptured handles.

*GE bottom-freezer refrigerators are a top choice among consumers who want modern design and maximum convenience.*

**ONLY GE HAS IT!**

**Contoured doors and sculptured handles**
Gently contoured doors and GE handles offer a dramatic, kitchen-enhancing look.

**ONLY GE HAS IT!**

**ClimateKeeper™ system**
Combines upfront electronic touch controls, multiple electronic sensors and a multiflow air system to keep temperatures consistent and help keep foods fresh.

**ONLY GE HAS IT!**

**Integrated Icemaker™**
Combines an icemaker and ice bin in one system to save space and hassle. The ice bin is built into the icemaker, not the freezer baskets, so cubes don't fall onto the freezer floor.

# GE Profile Arctica Bottom-Freezer Drawer Models: 22 to 20 cu. ft.

***These models include*** • **Upfront electronic touch controls with digital temperature readout** • ShelfSaver™ beverage rack • Slide-out, spillproof glass shelves • **QuickSpace™ shelf** • **FrostGuard™ technology** • **ClearLook adjustable gallon door bins** • **Multi-level Slide 'n Store™ basket system** • Adjustable humidity vegetable/fruit crispers • **Adjustable temperature deli pan** • Contoured doors • Sculptured handles • NeverClean™ condenser • Deluxe quiet design • Equipped for optional automatic icemaker    **Note: bold = feature upgrade from previous model**

QuickSpace shelf quickly slides out of the way to make room for tall items.

ShelfSaver beverage rack provides space for odd shapes and sizes.
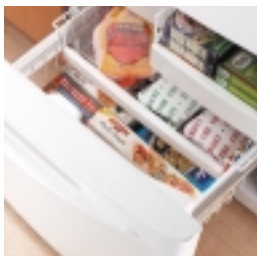

Slide 'n Store freezer drawer provides easy access to frozen foods.

## GE Profile
### Bottom-Freezer Drawer Icemaker Models

*Color(s) available: SS = Stainless steel, WW = White on white, CC = Bisque on bisque, BB = Black on black.
**Width including caps is 36-3/16".
†Water hook-up fits in back air clearance when calculating installation depth.

If installed against a wall, allow clearance of 14-3/16" on 25 cu. ft., 26 cu. ft. and 27 cu. ft. models; 13" on 29 cu. ft. models on freezer side to remove ice bin. To remove fresh food pans, remove door bins. Clearances required to remove fresh food full-size pan without disassembling: 18-15/16" on 25 cu. ft., 26 cu. ft. and 27 cu. ft.; 16-1/4" on 29 cu. ft. Allow additional space for any necessary leveling adjustments.

**ALL MODELS AVAILABLE IN U.S. AND CANADA.**
**Energy information available at www.GEAppliances.com**

Total volume and shelf area are calculated by the Association of Home Appliance Manufacturers' standards.

Listed by Underwriters Laboratories

 WW = White on white, CC = Bisque on bisque, BB = Black on black, CM = Color-Matched.
If installed against a wall, allow clearance of 13-15/16" on freezer side to remove bin.
Clearance required to remove fresh food full size pan without disassembling is 18-5/8".
**ALL MODELS AVAILABLE IN U.S. AND CANADA.**

# GE Profile Arctica CustomStyle™ Side-By-Side Installation Information and Specifications

## Rough-In Dimensions

**Standard, New Construction and Replacement Installation**

**Installation Tips to Maximize the Built-In Look**

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length, 1/4" diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet. (See local codes)
- Front and rear leveling legs are adjustable for the built-in look. (See owner's manual)
- If optional collar trim kit is to be used or anticipated, see collar trim installation on next page for different rough-in dimensions.
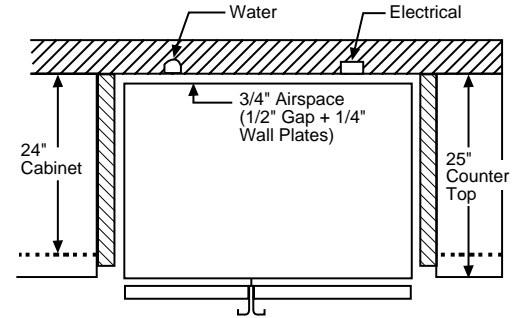

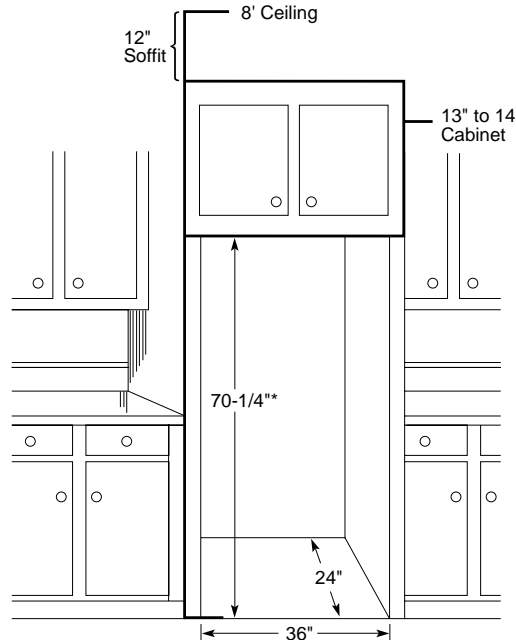

8' Ceiling
12" Soffit
13" to 14" Cabinet
70-1/4"*
24"
36"

Water
Electrical
3/4" Airspace (1/2" Gap + 1/4" Wall Plates)
24" Cabinet
25" Counter Top

*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

## Door Panel Dimensions

**Freezer Panel without Dispenser**

67-9/32
FRONT
← 19-15/32 →

**Order your own custom wood panels to match cabinetry or other decor.**
Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

**Weight Limits:** Total weight of panels (i.e., both freezer panels)— Fresh Food = 38 lbs., Freezer = 28 lbs.

**Note:** Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

### Detail C

1/8"
5/16"
Panels 1/4" thick or less
1/4" Max.

Recommended single loop of 1/4" copper water line
Allow 48" minimum water line to enable refrigerator to be pulled forward
24"
Recommended water line location using recess in rear wall
18"
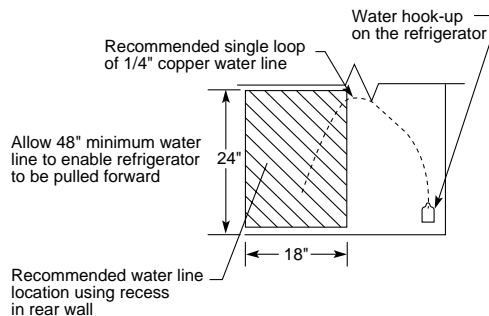

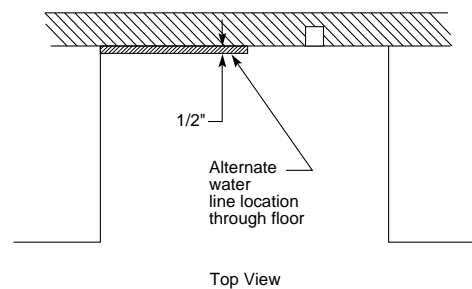

Rear Wall View

**IMPORTANT:** Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:
- A minimum of 36" is required for refrigerator installation
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

## Collar Trim Installation

An enclosure is **required** to match up to the trim, see Typical Installation. To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.

1/2" minimum

70-1/4"*

24-1/2"*

36-1/8"

*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

Side trim must be installed flush with the gasket contact surface on the case.

Overhead Cabinet
Cabinet Door
1"
Case
Top Trim

**IMPORTANT:** Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:
• A minimum of 36-1/8" is required for refrigerator installation with collar
• Be sure to allow for 1/2" or 3/4" side panels in addition to the 36-1/8" minimum

**Typical Installation**

Shaded areas represent front surfaces of side panels and overhead cabinet or soffit that contacts trim.

## Create a Custom Look for Your GE Profile CustomStyle Side-By-Side Refrigerator

Still another advantage offered by GE Profile CustomStyle Refrigerators is ease of installation. For a refrigerator that does so much to enhance the beauty of your kitchen, the "behind-the-scenes" preparation and installation are surprisingly simple.

W3624

Side Trim

Route hand slot before installing panel.

1/2" to 3/4" Side Panel
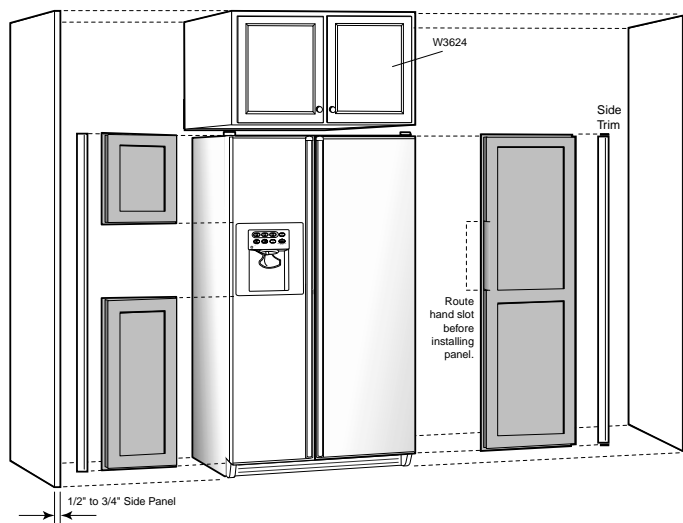

**Fabricating the Enclosure**

• The drawing shows an 84" cabinet elevation. Adjust dimensions accordingly for other cabinet elevations.
• Cabinet pieces to order: (2) side panels and (1) wall cabinet.
• Side panels will typically be attached to adjacent cabinets and/or cleated to rear wall and floor.
• Refer to GE refrigerator installation instructions for proper plumbing, and electrical and air clearances.
• (1) Some framed cabinet lines will make a refrigerator enclosure with a cabinet 12" high x 39" wide with sides and 1-1/2" face frame extended down to floor to create the refrigerator space. This will replace the above construction.
(2) A tall cabinet on either side of the refrigerator can replace a side panel!
• Counter overhangs on either side of the refrigerator should have clipped corners to allow for full door swing.
• If the refrigerator has a wall returning beyond the front of the refrigerator on either side, a 2" tall filler will help to allow for movement of the door.

**Door Panels**

• See drawings for exact dimensions of the fresh-food and freezer door panels.
• Refrigerator door fronts from stock and most semi-custom cabinet manufacturers will be supplied as 1/4"-thick panels cut to dimensions, with closest available standard door sizes applied to front.
  –This will leave a "reveal" at top/bottom and sides. Width of "reveal" will depend on manufacturer's standard door sizes.
  –Door will be affixed on the 1/4" panels at factory or in the field by the local supplier, depending on manufacturer.
• Local shop-built or custom cabinet supplier may fabricate custom 3/4" panels. In this case, edges must be routed.
• Follow notes on drawing to assure room for fingers/hands to open handles.

# GE Profile CustomStyle™ Top-Freezer Installation Information and Specifications

## Rough-In Dimensions

### Standard, New Construction and Replacement Installation

**Installation Tips to Maximize the Built-In Look**

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length, 1/4" diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet. (See local codes)
- Front and rear leveling legs are adjustable for the built-in look. (See owner's manual)
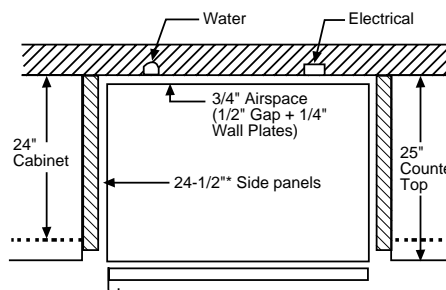

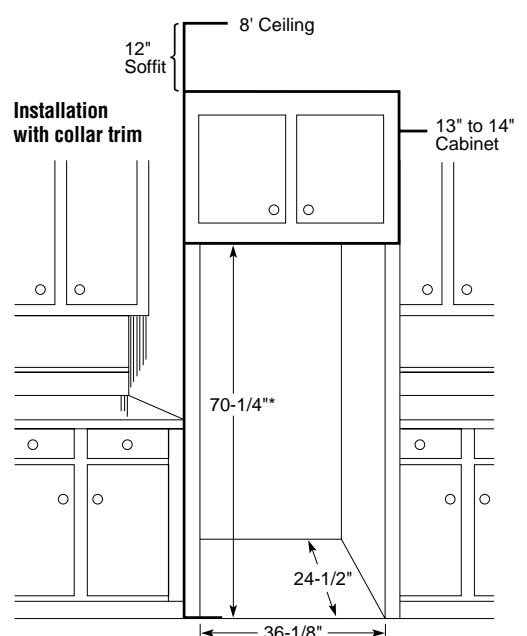

## Collar Trim Installation

An enclosure is **required** to match up to the trim, see Typical Installation. To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.

Rough-In Dimensions
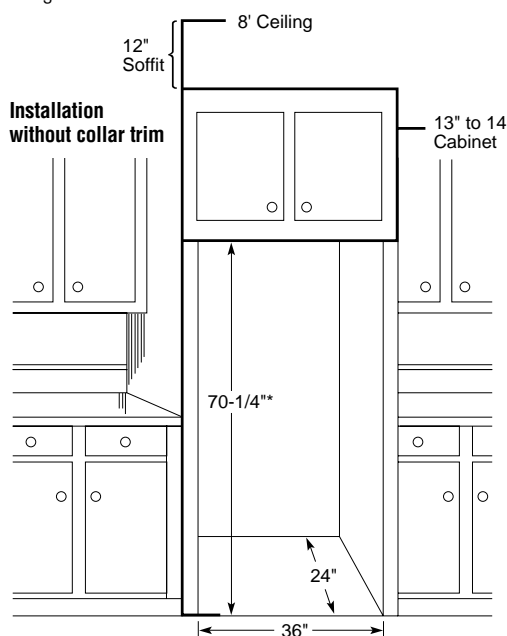

Installation without collar trim

Collar Trim Installation

Installation with collar trim

*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

For 22 cu. ft. models only.
*22" depth applies to the refrigerator opening, not the actual cabinet depth.

## Door Panel Dimensions

**Order your own custom wood panels to match cabinetry or other decor.**

|  | Fresh Food Panels | Freezer Panel Without Dispenser | Freezer Panel With Dispenser |
|---|---|---|---|
| **22 cu. ft.** | **B**-42-1/4" **C**-35-3/4" | **A**-24-1/16" **C**-35-3/4" | **D**-24-1/16" **C**-35-3/4" |

Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

**Note:** Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

**Handle Side Clearance**
- At least 2-5/8" (67mm) on the handle side for fingertip clearances.

**Top and Bottom Clearance**
- At least 3/16" (4.75mm) at the top and bottom edges to allow for trim flange.

**Hinge Side Clearance**
- A 3/4" (19mm) thick door panel may strike the adjacent countertops when the door is fully opened. Therefore, the hinge side clearance to raised panel will vary according to the installation situation.
  –Allow 1-3/4" (44mm) clearance when installation does not include side panels.
  –The installation of 3/4" (19mm) thick side panels requires less clearance because the space between the door and adjacent countertop is wider.

- To avoid door contact to countertop consider:
  –Miter the corner of the adjacent countertops 45°, or
  –Pull the refrigerator forward enough to avoid contact.

**Stability Leg**
- The top-freezer refrigerator is the first cabinet-depth top-freezer. This means depth is more shallow than conventional models and the width is larger. The stability leg gives the unit extra support.
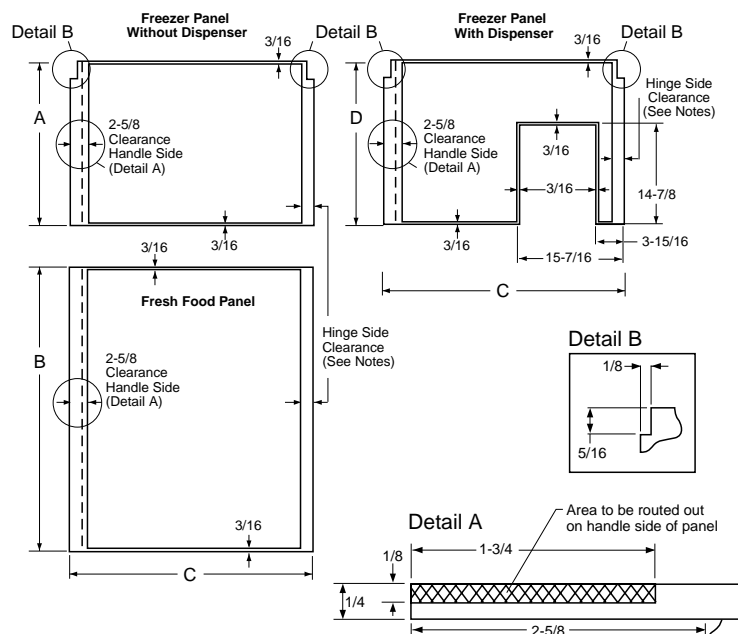

**IMPORTANT:** Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:
- A minimum of 36" is required for refrigerator installation
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum
