HOTPOINT

Value and Dependability

1997-1998

$10

Hotpoint appliances are a good choice when value and affordability are paramount. Hotpoint offers a wide choice of products combining flexibility, convenience and strong value with a recognized brand name. From more traditional styling to dependable features, Hotpoint brings a practical approach to the kitchen.

HOTPOINT
For the long run.

Side-by-side refrigerators

Hotpoint Side-by-side refrigerators are available with a variety of convenient extras, including gallon storage on the door, to fit a range of food storage needs.

One Touch! ice dispenser
Exterior ice and water service responds to a mere touch delivering crushed ice–the new rounded-shape cubed ice designed for a better fit– or chilled water to your glass.

Adjustable compartment shelves
Cabinet shelves in fresh food and freezer compartments adjust for storage flexibility.

Extra-deep adjustable door bins
Deep door bins hold gallon containers and six-packs in the fresh food compartment.
Slide-out freezer storage bin
Allows for easy loading and unloading of bulk purchases.

Vegetable/fruit crispers
Adjustable humidity keeps fruits and vegetables fresher longer.

Adjustable temperature meat pan
Helps maintain proper temperature to keep meats and deli items fresh longer.

Spill proof glass shelves
Help contain spills for ease of cleaning.

CSX25DRZ

Not all features available on all models.

Top-mount refrigerators

Hotpoint Top-mount no-frost refrigerators have a wide range of capacities with a variety of new features, including gallon door storage, allowing for the greatest in food storage flexibility and convenience.

Fixed gallon door storage
Provides storage for gallon containers, six-packs and other large fresh food items; in the freezer, storage for large, bulky items.

Twin crisper system
Controls storage conditions with two different humidity levels to keep foods fresh.

Spill proof glass shelves
Help contain spills for ease of cleaning.

Snack pan
Excellent for rewrapped meats, cheese, hors d'oeuvres, pudding and other snacks.

Full-width freezer shelf
Provides maximum convenience and flexibility in storing frozen food items.

Dairy compartment
Convenient counter balanced door covers butter and cheese to keep unwanted odors away.

Nice Cubes™ Icemaker
Provides rounded-shape ice, designed for better fit into a glass, reducing "damming" or ice clogging as you drink a beverage.

CTX21DIZ

CSX25DRZ

CSX20BAX

Create a custom look

Create a stylish, custom look for your new Hotpoint refrigerator with Panel Kits. It's an exciting way to express your individual tastes and preferences, while complementing kitchen decor.

CSX22GAZ

CSX19LAX

Side-by-side dispenser refrigerators

Discover the convenience of custom dispensing crushed ice, cubes or chilled water– directly through the door!

CSX25DRZ
- 25.2 cubic foot capacity
- 9.32 cubic foot freezer
- OneTouch! dispenser
- Adjustable fresh food gallon door storage
- Spill proof adjustable glass fresh food cabinet shelves
- Adjustable temperature meat pan
- Adjustable humidity vegetable/fruit crisper

CSX22GRZ (not shown)
- Similar features and appearance as CSX25DRZ except 21.7 cubic foot capacity.
- Fixed gallon door storage
- Adjustable, glass fresh food shelves

CSX22GAZ
- 21.7 cubic foot capacity
- 6.79 cubic foot freezer
- Adjustable glass fresh food cabinet shelves
- Adjustable humidity vegetable/fruit crisper
- Adjustable temperature meat pan

Side-by-side non-dispenser refrigerators

All models equipped for Nice Cubes™ Icemaker (Kit IM3)

CSX20BAX
- 19.7 cubic foot capacity
- 6.79 cubic foot freezer
- Adjustable wire Everwhite fresh food cabinet shelves
- Classic white vegetable/ fruit crispers
- Fixed fresh food gallon door storage
- Equipped for optional automatic icemaker

CSX22BCX (not shown)
- Similar features and appearance as CSX20BAX except 21.7 cubic foot capacity and includes cube only One Touch! dispenser.

CSX19LAX
- 19.4 cubic foot capacity
- 6.70 cubic foot freezer
- Wire Everwhite fresh food cabinet shelves
- Classic white vegetable/fruit crisper and wire trivet
- Equipped for optional automatic icemaker

Not all features available on all models.

VBXR2070V

VBXR1060V

VVXR1040V

Super capacity
The 3.2 cu. ft. super capacity washer provides added space for extra-large loads.

FlexCare™ agitator
Delivers excellent wash performance, and the innovative "Flexible Fins," care for delicate wash loads.

Balance Pro™ suspension system
An innovative rod and spring floating suspension system designed to handle off-balanced loads on any type of floor.

Tuf Tub™ basket
The basket resists peeling, chipping, rusting or flaking for long term durability. Backed by a great 20-year limited warranty.
All features may not be available on all models.

Extra-large capacity dryer

NWXR473EV (Electric)
NWXR473GV (Gas)
- Automatic dry control
- Variable end-of-cycle signal
- Dryer interior light
- 7 cycles
- Optional press guard
- 4 heat selections
- Up-front lint filter
- Reversible door

Large capacity dryers

NJLR473EV (Electric)
NJLR473GV (Gas)
- Automatic dry control
- Dryer interior light
- 7 cycles
- Optional press guard
- 4 heat selections
- Up-front lint filter

NVLR333EV (Electric)
NVLR333GV (Gas)
- Automatic dry control
- 3 cycles
- 3 heat selections
- Up-front lint filter
Automatic dry control
Monitors moisture level with an automatic thermostat and ends the cycle when clothes are properly dried. **Optional press guard** provides extra care to help prevent wrinkles.

Up-front lint filter
Convenient, up-front removable lint filter is easy to reach, easy to clean.

Extra-large dryer opening and drum
The extra-large opening gives you easy access to the 6.0 cu.ft. double-coated dryer drum.

New off-set appearance
A contemporary design that makes cleaning easy.

All features may not be available on all models.

Electrical requirements

WSM2700T: Electric dryer—This appliance should be connected to an individual, properly-grounded branch circuit with 120/240V or 120/208V single-phase 60 Hz electrical service and should be protected by 30-amp time-delay fuses or circuit breakers. This appliance is manufactured with neutral connected to the frame. Power cord should be purchased separately.

WSM2420T: Electric dryer—This appliance should be connected to an individual, properly-grounded branch circuit with 120/240V or 120/208V single-phase 60 Hz electrical service and should be protected by 30-amp time-delay fuses or circuit breakers. This appliance is manufactured with neutral connected to the frame. Power cord should be purchased separately.

NOTE: THESE APPLIANCES ARE NOT APPROVED FOR 120-VOLT OPERATION.

Models WSM2700T and WSM2780T Dimensions (in inches)

Models WSM2420T and WSM2480T Dimensions (in inches)

WSM2480T: Gas dryer—This appliance should be connected to an individual, properly-grounded branch circuit with a three-prong grounding-type receptacle and 120-volt single-phase 60 Hz electrical service and should be protected by 15 or 20-amp time-delay fuses or circuit breakers. This appliance is equipped with a 6-foot long flexible U.L. listed 20-amp power cord to match a 15-amp receptacle.

Gas rated input 10,500 BTU/HR. Factory equipped for natural gas. Tested for LP gas.

WSM2780T: Gas dryer—This appliance should be connected to an individual branch circuit with 120-volt single-phase 60 Hz electrical service and should be protected by 20-amp time-delay fuses or circuit breakers. This appliance is equipped with a 4-foot long flexible U.L. listed 20-amp power cord to match a 20-amp receptacle.

WSM2780T Gas Rated input 20,000 BTU/HR. Factory equipped for natural gas.

**LP gas supply requires a conversion kit.**
Have a qualified gas technician install a conversion kit before use.
Exhaust information
See "Dryer Exhausting Information" on page 28.

For complete information see installation instructions packed with the product.

Dryer exhausting Information

For complete information see installation instructions packed with dryer.

Important note:
GE Kit Number WE14X70 needed when converting rear exhaust to bottom or side. (On large capacity models.)

Ducting materials
For best performance, this dryer should be vented with 4" diameter all rigid metal exhaust duct. If "all rigid metal" duct cannot be used, then "flexible all metal" venting can be used, but it will reduce the maximum recommended duct length. The following kit or parts are available from your local service organization.
Kit WX8X75—7' aluminum duct and 4' hood, short tail.
(OR individual parts):
WX8X65   7' aluminum flex duct only
WX8X58   4' clamps (2)
WX8X67   4' exhaust hood
See installation instructions for complete information.

Exhaust length calculation:
1. Determine the number of 90° turns needed for your installation. If you exhaust to the side or bottom of dryer, add one turn.
2. The maximum length of 4' rigid (aluminum or galvanized) duct which can be tolerated is shown in the table. The maximum lengths for flexible ducts are less than for rigid duct. See table in installation instructions.

A turn of 45° or less may be ignored. Two 45° turns within the duct length should be treated as a 90° elbow. A turn over 45° should be treated as a 90° elbow.
Exhausting the dryer to the outside is strongly recommended to prevent large amounts of moisture and lint from being blown into the room. Gas dryers or any dryer located in a closet **must** be exhausted to the outside.

Caution: For personal safety do not terminate exhaust into a chimney, under any enclosed house floor (crawl space), or into an attic, since the accumulated lint could create a fire hazard or moisture could cause damage. Never terminate the exhaust into a common duct or plenum with a kitchen exhaust, since the combination of lint and grease could create a fire hazard.

Exhaust ducts should be terminated in a dampered wall cap to prevent back drafts, bird nesting, etc. The wall cap must also be located at least 12" above the ground or any other obstruction with the opening pointed down. Other terminations, such as louvered wall boxes, are acceptable provided they are equivalent to a 4" opening dampered wall cap.

Dryer Note: Dryer wall outlet must be located within 36" of service cord entry and accessible when dryer is mounted in position.

Electric ranges

Quality Hotpoint free-standing electric ranges are perfect solutions for today's busy schedules! Self-cleaning and continuous cleaning ovens save you time and effort. On ranges with one-piece, upswept cooktops, a simple wipe-up does the job.

The Hotpoint free-standing smooth top ranges provide quick cooking response. The fast, ribbon heating elements are positioned beneath the smooth cooktop and direct heat straight up to the pan.

RB757GT

Lift-up cooktop
Cooktop lifts up to allow easy clean-up of hard-to-reach spots underneath.

One-piece upswept cooktop
No cracks or crevices to trap dirt! The porcelain enamel-on-steel surface wipes clean easily.

Ribbon heating elements
Unlike conventional elements, the heat comes from brightly glowing ribbon elements positioned beneath the smooth fingerprint and scratch resistant patterned glass surface.

Plug-in surface elements
Unplug to permit clean-up or removal of drip bowls for easy cleaning in dishwasher. Plus easy access for cleaning of recessed areas designed to catch spillovers.

Electronic oven controls
Easy-to-use electronic oven controls provide:
■ Simple touchpad oven operation ■ Auto Self-Clean ■ Self-clean cycling light ■ Preheated oven light with audible preheat signal ■ Auto oven shut-off ■ Electronic clock and timer ■ Automatic oven timer ■ Oven "ON" light ■ Delay Bake option.

Two-step self-clean
Simply latch the oven door and turn to "Auto Self-Clean"– the oven does the rest.

Calrod® surface elements
The design of the removable Calrod® surface elements assures fast, clean cooking and better heat distribution.

Frameless glass oven door
The full-width frameless door offers easy-clean, contemporary styling.

Removable full-width storage drawer
Conveniently stores cooking utensils close at hand. Drawer removes easily for cleaning underneath.

All features may not be available on all models.

Listed by Underwriters Laboratories ®

All Hotpoint ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.

30" free-standing range installation information (in inches)

REAR WALL
CENTER LINE
7-1/2 7 7-1/2 5 2-1/4 3-1/2 2-1/4

Note: 30" Electric Ranges conform to U.L. requirements for 0" spacing from walls below countertops. However some kitchen cabinet finishes can be damaged by heat from the range heating elements. It is recommended that a clearance of at least 1-1/2 inches be maintained to walls. Where varnished wood or plastic film finishes are used, a minimum clearance of 6 inches should be maintained.

Receptacle locations
Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

Installation information: Before installing, consult installation instructions packed with product for current dimensional data.

*WH=White, AD=Almond, CM=Color-Matched. Almond is a special order.

24" free-standing range dimensions and installation information (in inches)
Note: 24" Ranges conform to U.L. requirements for 0" spacing from range to adjacent walls below countertop. To reduce possibility of scorching of the side wall adjacent to the heating elements, it is recommended a 2" spacing from adjacent side walls be allowed for possible extended high-heat, no-load heating element operation.

*Depth including up-front angled control panel

20" free-standing range dimensions and installation information (in inches)

*Depth including handle 25-9/16". Depth to front of control knobs 26-1/8"

Note: Compact 20" Electric Ranges conform to U.L. requirements for 0" spacing from range to adjacent walls below countertop. To reduce possibility of scorching of side walls adjacent to heating elements, it is recommended a minimum of 2-1/2" spacing from adjacent side walls be allowed for possible extended, high-heat, no-load operation of heating elements.

Installation information: Before installing, consult installation instructions packed with product for current dimensional data.

Receptacle locations
Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawings for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

All Hotpoint ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.

Listed by Underwriters Laboratories

See page 71 for warranty information.

Gas ranges

Hotpoint Capacity Plus™ gas ranges feature:
- Extra-large usable oven capacity
- Available with self-cleaning, continuous cleaning or standard clean oven
- Select models feature sealed burners that provide simmer capability and maximum output
- Extra-large broiler pan and grid
- Six embossed rack positions
- Upswept porcelain-enameled cooktop

Sealed gas burners
Special burner design helps contain spills and boilover liquids from dripping beneath cooktop for easy clean-up.

Simmer 600 burner
Offers true simmer capability with a low (600 BTU) setting. Provides low, even heat distribution for delicate foods and sauces.

Performance Plus burner
Provides maximum output (12,000 BTU) for fast heat-up and boiling.

EasySet clock and oven timer
Easy-to-use electronic touchpad controls and delayed baking function with the convenience of knobs for controlling the oven, make cooking simple.

Capacity Plus™ gas ranges
Extra-large oven has more usable capacity than any other leading brand. Sixth embossed rack position increases cooking flexibility.

One-piece upswept cooktop
Has no cracks or crevices to trap dirt. The porcelain enamel-on-steel surface wipes clean easily.

Extra-large broiler pan/grid
Porcelain-enameled broiler pan and grid are extra large. Allows for extra broiling space.

Lift-up cooktop with easy-clean subtop
Standard burner models have a cooktop that lifts up for easy access to porcelain-enameled subtop. Twin rod supports allow cooktop to lift and lock into place. No pipes or wires to interfere with clean-up.

All features may not be available on all models.

 DESIGN CERTIFIED AMERICAN GAS ASSOCIATION

 CANADIAN GAS ASSOCIATION APPROVED

 UL Listed by Underwriters Laboratories

High performance

GE High Performance and Performance Hoods are designed with an easy-to-clean continuous surface and two large filters that can be cleaned at the sink or dishwasher.

The High Performance hoods are recommended for use with grill/griddle cooktops. Powerful CFM performance draws smoke and odors up and out of the kitchen.
JV376V
- 30" vented hood
- Available in White on white or Black on black
- Rotary controls
- 2 cooktop lights
- Night Light setting
- Variable speed fan control
- Vertical or rear exhaust (410/380 CFM)
- 3-1/4" x 10" rectangular duct

Performance

JV356V
- 30" width
- Available in White on white, Black on black or Almond on almond
- Rotary controls
- Variable speed fan control
- 250 CFM (max.)
- 2 cooktop lights
- Night Light setting
- Convertible exhaust options (rectangular or non-vented)
- Rectangular damper included

JV656V (not shown)
- 36" width

Deluxe

JV347X
- 30" width
- Available in White on white, Black on black or Almond on almond
- Rotary control
- Three-speed fan
- Cooktop light with Night Light setting
- Light cover
- Convertible exhaust (Shipped in non-vented configuration, convertible to round or rectangular exhaust.)
- Rectangular damper included

JXDA22 round damper accessory, available at additional cost.

Standard

JV327X
- 30" width
- 7" round duct
- Easy-to-use rocker switches
- Two-speed fan
- Cooktop light
- Available in White or Almond

JXDA22 round damper accessory, available at additional cost.

JV337X (not shown)
- 3-1/4" x 10" rectangular duct
- Rectangular damper included

JN327X (not shown)
- Non-vented

## Microwave convenience with no loss of usable space

Installs in the same space as a range hood. Counter Saver Plus™ microwave ovens are equipped with a built-in venting system, an enhanced two-speed, high-capacity exhaust fan plus Full-View cooktop lighting which illuminates the entire range cooking surface. The addition of a Counter Saver Plus™ microwave oven over your range creates a complete cooking center!

JX81A–Recirculating charcoal filter kit
To be used when the Counter Saver Plus™ microwave oven cannot be vented to the outside.

When replacing a 36" or 42" range hood, these kits fill in the additional width to provide a custom, built-in appearance. For installation between cabinets only; not for end-of-cabinet installation. Each kit contains two, 3" wide filler panels. Two kits are needed for a 42" opening.

Ventilation options

The Counter Saver Plus™ microwave oven is designed for adaptation to the following three types of ventilation:
Outside exhaust (Vertical—as shown above)
Outside exhaust (Horizontal)
Recirculating (Non-vented ductless—see Filter Kit Drawing)

Note: Before installing, consult installation instructions for current dimensional data on these three types of ventilation.

Important: When installing the Counter Saver Plus™ microwave oven over a range, allow minimum of 2" from bottom of the Counter Saver Plus™ microwave oven to top of range backguard to allow for removal of light covers.

50

Counter Saver Plus™ microwave ovens

The design of the Counter Saver Plus™ microwave ovens complements any kitchen. Available in black or white on white styling. Enjoy the convenience of microwave cooking with eye-level controls, directly above your range or cooktop in the space of a range hood.

1.3 cu. ft. oven cavity
The 1.3 cu. ft. oven cavity has room for extra-large casserole dishes, or 2 dishes side by side.

850 watts
Powerful 850 watts† of microwave output for fast cooking and reheating.

Help Pad
This convenient feature provides descriptive word prompts and eliminates the guesswork.

Auto/Time Defrost
Permits defrosting a variety of foods in minutes instead of hours. Automatically sets defrosting time and power level. Enter food weight and the oven does the rest.

Time Cook I & II
Allows you to set two time controlled cooking functions within one program.

Minute Cook
A shortcut to set cook times from 1 to 6 minutes. Automatically cooks at full power with the touch of one pad.

10 power levels
A choice of 10 power levels for maximum cooking flexibility, from warming and reheating, to the full speed of microwave cooking at high power.

Reheat
Offers the flexibility of automatically reheating a variety of popular foods from a cup of coffee to a plate of leftovers.

Popcorn
This feature maximizes popping without scorching. For use with three popcorn bag sizes, 3.5, 3.0 and 1.75 oz.

Instant On controls
- Minute Cook (1-6 minutes)
- Add 30 seconds
- Popcorn

Easy, one-step features. Simply press the desired function and the oven automatically begins to cook. No need to press START.
Full-View cooktop lighting
Provides better distribution of light over the entire cooking surface.

### Enhanced two-speed, high-capacity exhaust fan
A smoke removal system that provides quieter operation, yet gives better performance and requires less clean-up.

†IEC-705 Test Procedure

Interactive Display System
Easy-to-read horizontal scrolling display is designed to make cooking easier, and give you the flexibility of programming several functions at once.

The Counter Saver Plus™ microwave ovens feature a DualWave microwave distribution system that results in even cooking. This top feed stirrer system allows microwave distribution to surround the food for thorough, fast cooking.

Listed by Underwriters Laboratories

GE Turntable Countertop microwave ovens provide

Time Cook, 10 power levels, Easy-to-clean removable glass turntable, Electronic touch controls with digital display and clock, Auto Defrost, Time Defrost, Express Cook, Cooking Complete Reminder, Instant On Controls, Kitchen Timer, Sound On/Off, Delay Start/Reminder, Child Lock Out, Add 30 Seconds

Sensor Cooking Controls

Sophisticated GE sensors automatically monitor and control cooking times and power levels. The built-in sensor detects steam emitted by cooking food. These automatic functions take the guesswork out of microwave cooking.

Scrolling Display

Gives you the flexibility of programming several functions at once for meal preparation.

Convenience Cooking Controls

Five pads offer flexibility and convenience: BEVERAGE, for quick heating of coffee, tea or cocoa. POPCORN, designed for pre-packaged popcorn bags—maximizes popping without scorching. REHEAT, for heating many popular foods. SNACKS, perfect for pizza and muffins. COOK, a great cooking function for meats and vegetables—automatically programs exact time and power level needed for cooking.

Hotpoint dishwashers offer new features for today's customers

New Power Wash II System
Three-level wash action with powerful jet action for effective food soil removal and great wash performance.

Self-cleaning filter
Water recirculates through filtering system, food particles are washed away as water drains and filter cleans itself.

Pots & Pans cycle
Removes dried-on and baked-on (but not burned-on) food from pots, pans and dishes.

Delay Start
Sets the dishwasher to start as much as six hours later.

Crystal Clear™ rinse aid dispenser
Container automatically releases a small amount of rinse agent, which speeds drying and lessens water spotting and streaking.

3-Level "Wall of Water"
Completely covers any item in dishwasher, providing excellent wash performance.

Toe kick & access panel insulation
Fiberglass insulation in toe kick and access panel minimizes operating noise.

Super upper rack
Extra-deep racks include an upper rack that accommodates tall glasses. Extra fold-up cup shelves allow for double-stacking of dishes.

Deluxe flat lower rack
The rack has curved tines to accommodate stoneware and large plates or broiler pans.

Super silverware basket
A heavy-duty lift-out silverware basket is included in the lower rack. A special added feature is the hinged cover on the basket which holds lightweight items in place during washing.
Durable tub and door liner
Guaranteed against leakage from cracking, peeling, chipping or rusting for ten years.

Trimless Appearance
Door and access panel have a screwless, trimless appearance.
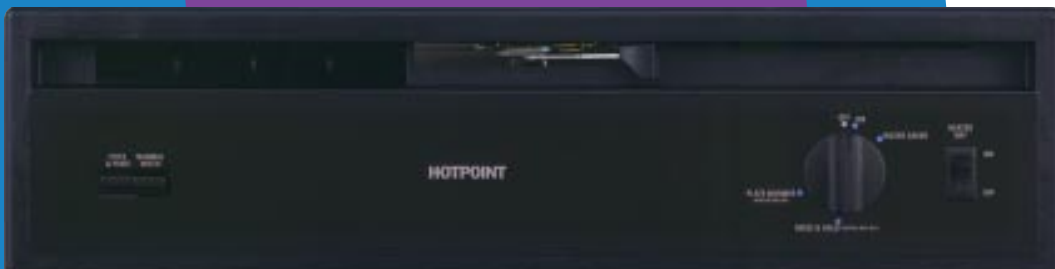

High quality features for performance and convenience

Continuous feed models

GFC1000Y
- Rugged 3/4-horsepower motor ■ 8000 RPM grinding action ■ Super Deluxe sound insulation ■ Power Boost feature for heavy loads ■ Fast Mount installation ■ Removable splash guard

GFC800Y
- 1/2-horsepower motor ■ 8000 RPM grinding action ■ Deluxe sound insulation ■ Fast Mount installation ■ Removable splash guard

GFC700Y
- 1/2-horsepower motor ■ 8000 RPM grinding action ■ Sound shield ■ Fast Mount installation ■ Removable splash guard

GFC705Y
- Similar to GFC700Y but has attached line cord.

GFC300Y
- 1/2-horsepower motor ■ 8000 RPM grinding action ■ Fast Mount installation ■ Removable splash guard

GFC305Y
- Similar to GFC300Y but has attached line cord.

GFC290Y
- 1/3-horsepower motor ■ 8000 RPM grinding action ■ Fast Mount installation ■ Removable splash guard

GFC295Y
- Similar to GFC290Y but has attached line cord.

Batch feed model

GFB1050V
- Rugged 3/4-horsepower motor ■ 2700 RPM grinding action ■ Super Deluxe sound insulation ■ Twist Mount installation

Where local codes permit, any GE Dishwasher and any GE Disposer may be connected to a single 20-amp circuit.

White and Almond flanges are available: GPF71 (White) and GPF72 (Almond).

GE Compactors

All models feature:

- 1/3 horsepower ■ Removable key lock

GCG1530ZWW
White on white convertible 15" compactor can be used as a free-standing unit now, built-in later.
- Hands-free toe opening drawer
- Automatic anti-jam feature
- Bag caddy ■ Rear wheels allow easy movement and installation
- Heavy gauge steel construction

For detailed specifications, installation information and color availability, refer to page 65. For warranty information, refer to page 71.

Convertible 12" compactor can be used as a free-standing unit now, built-in later.

GCG1520ZBB
- Black on black

GCG950T
- Easy-opening drawer
- Bag storage compartment above compactor drawer ■ Replaces standard 12-inch base cabinet

Cabinet cutout for sink
Cabinet cutouts for offset single and double bowl sinks. Dishwasher not provided with complete enclosure. Enclosures for sides, top, bottom, and back must be provided by installer at time of installation.
### Undersink dishwasher wood insert dimensions (in inches)

Inserts must not exceed 1/4" thickness within 5/16" of edge around full circumference.

Stainless steel sinks
single and double compartment models
(dimensions in inches)

Model Number	Overall Size		Inside Each Compartment		
	L	W	L	W	D
GPF95 (Single Bowl, R)*	25	21-1/4	21	15-3/4	5-3/8
GPF96 (Single Bowl, L)*	25	21-1/4	21	15-3/4	5-3/8
GPF97 (Double Bowl)	33	21-1/4	14	15-3/4	5-3/8

Model Number	Cutout In Countertop 1-1/2" Radius Corners		No. Of 1-1/2" Dia. Faucet Holes	Ship. Wt. Lbs.
	L	W		
GPF95 (Single Bowl, R)*	24-3/8	20-5/8	3 or 4**	10
GPF96 (Single Bowl, L)*	24-3/8	20-5/8	3 or 4**	10
GPF97 (Double Bowl)	32-3/8	20-5/8	3 or 4**	12-1/2

Note: Drain opening size is 3-1/2".
Above models are fully sound deadened.
  *Suffix "L" or "R" means drain outlet is located in upper left
   or right corner of sink compartment.
**All have four holes, but one hole has a removable plug.

	A	B	C
1/4" panels	18-7/8	23-9/16	3-11/16
3/4" panels	18-15/16	23-5/8*	4-1/4 to 3-3/4**

 *Note: Bottom of panel must be notched
  1-1/2" x 1/2" to clear access panel.
**Adjustment required to match adjacent cabinet
  fronts due to leveling leg adjustment– 4" nominal.

Plumbing/electrical rough-in
Plumbing: Hot Water Only. Use 3/8" O.D. copper tubing or 1/2" O.D. plastic tubing min. inlet line. Water valve has 3/8" internal threads. Hand cut-off valve is recommended.

Electrical: Fuse circuit with 15 amp or 20 amp standard fuse or circuit breaker. Total amp load is 8.6. Dishwasher operates on 120V, 60 Hz power. Two-wire cable (14 Ga. Min.) with ground must be installed.

Note: All rough-in, both plumbing and electrical, must be completed before the dishwasher is installed. All plumbing and electrical work must be in accordance with local codes.

Specifications: Inlet Water Temperature Recommended: Minimum 120°F. at dishwasher. Inlet Water Pressure Required: 15 to 120 lbs./sq. in.

Cabinet rough-in
Either single- or double-bowl sink may be used, centered or offset, as shown in the front illustration above. The 20-1/2" max. dimension from wall to front of sink bowl must be accurate if dishwasher is to fit properly under sink. Water lines to sink faucet and drain from sink can be run through area "A." HOT WATER line to dishwasher is installed in area "B." Garbage disposer, water lines to faucet, trap, waste air gap and water cut-off valve are installed in 12" wide cabinet shown in area "C." Sink opening for garbage disposer must be dimensioned as shown in front view, area "C" above (7-1/2"). This will provide clearance for disposer and plumbing in cabinet "C" when using double bowl sink. If the sink bowl is more than 20-1/2" max. specified distance from the wall, or if the base cabinet is less than the 24" min. depth from the wall, a gap between the tub front flange and the front of the base cabinet may result.

Rough-in for installation with disposer
A close-fitting elbow or special shallow sink strainer is necessary to provide clearance between sink drain and dishwasher. Dishwasher is furnished with a 1/2" I.D. drain hose, 78" long. If using copper tubing, a 2" length of 1/2" I.D. rubber hose must be provided to connect copper tubing to pump outlet. Disposer should have 7/8" I.D. dishwasher drain connector.

**Figure 2**

Dishwasher   Countertop
Dishwasher Door
2" Minimum
Most of the installation work should be done before the dishwasher is moved into place. First, select a location as close to the sink as possible for ready access to water and drain lines. For proper operation and appearance of the dishwasher, the cabinet opening should be square and have dimensions as shown in Figure 1. If the dishwasher is to be installed in a corner, there must be sufficient clearance to open the door as shown in Figure 2. A *minimum* clearance of 2" is recommended.

Rough-in the water, electrical, and drain lines before proceeding with the installation. The lines should run straight to their connections on the dishwasher.

Note: Make sure that the lines do not cross in front of the dishwasher motor or its legs.

GE Dehumidifiers

Dehumidifies your air

A GE dehumidifier can provide added comfort and help protect your home from the damage excess moisture can cause.

Use anywhere moisture can be a problem—living areas, damp basements, humid laundry rooms and storage areas. GE dehumidifiers help prevent rust, mildew, mold, odors and wood damage.

Three models are available in capacities of 25, 35 and 45 pints to help protect areas up to 2500 square feet. All offer automatic shut-off with signal light, variable humidity control, removable water bucket and easy-roll casters.

 *This unit is **not** intended to be the primary source of heat.
**Reduced capacity with RAG14 optional grille, 3% (J Models only).

Built-In Room Air Conditioners Wall Opening for RAB46/47/48 Cases

A finished opening of 26-1/8" x 15-3/4", clear of intrusions, is required. Keep clearance of 4" from side walls. Brick veneer or frame walls should have wood studding surrounding case to provide firm anchoring with screws. Case can be fastened directly to brick or block walls with screws sunk in lead expansion shields.

Note: Units should be caulked on all four sides of case to the building exterior to assure building integrity.

Make frame if desired or caulk between case and siding

Two Wall Cases for Tenant Option Installation
When the air conditioner is offered as a tenant option, these wall cases provide protection against outside elements.
**RAB47—**includes wall case, exterior grille, weather panel and steel closure panels.
RAB48—includes wall case, exterior grille, steel closure panel and two layers of insulation.
Standard Wall Case RAB46
Solid-sided wall case fabricated of galvanized steel with baked enamel finish. Welded areas are coated with a sealing compound to help resist rust and corrosion. Polymer gasket surrounds opening to assure tight weather seal. Aluminum grille (RAG13) is included. Panels on interior and between case and grille provide weather protection prior to installation of chassis.

Wall Outlets
All wiring, including installation of receptacle, must be made in accordance with local electrical codes and regulations. Electrical outlet should be in reach of line cord.

Note: Aluminum wiring may pose special problems—consult a qualified electrician.

Note: Some models may not be available in your area due to local legislation. Contact your local dealer.

Note: When installing slide out chassis units in through-the-wall applications, keep louvers free. Do not restrict air flow areas. Fixed chassis units are not suitable for through-the-wall applications.

  *See warranty for details.
 **In-Home service available at additional cost.
***Does not include service trip and labor charges.

†Cumulative limits: $100—14.9 cu. ft. and smaller; $150—15.0 cu. ft. and larger.
††One year on spoilage from any part failure. Five years on spoilage from sealed refrigerant system failure.

GE Consumer Service, We'll Be There!

Here are four reasons to choose Monogram®, GE Profile,™ GE, Hotpoint and RCA Appliances:

GE Appliance Service
800-GE-CARES

Expert Service When You Need It!

- Call us 24 hours a day, every day of the year.
- Among the best one-call repair completion rates in the industry!
- Receive a 5-year full warranty on parts when installed by GE.

GE Answer Center®
800.626.2000

We Never Close!

- Any hour of the day or night—even on weekends and holidays—the GE Answer Center® service is available to answer questions about Monogram®, GE Profile,™ GE, Hotpoint, and RCA features and installations.
- You and your customers can call toll-free before, during and after the sale.

GE Genuine Parts
800-626-2002

When You Want Parts To Fix It Yourself!

- We offer a complete line of parts, accessories and appliance care products for GE appliances and most other major brands too!
- Fast, convenient delivery direct to you.

GE Service Contracts
800-626-2224

We'll Cover Any Appliance. Anywhere. Anytime.*

- All brands covered
- Backed by GE
- With GE Service Protection Plus,™ you receive complete coverage on parts, labor and service calls for the term of your GE Service Contract.

*All brands covered, up to 20 years old, in the continental U.S.

Before purchasing any appliance on which the Federal Trade Commission requires an energy label, read important energy cost and efficiency information available from your retailer.

GE has a policy of continuous improvement on its products and reserves the right to change materials and specifications without notice.
