†**Note:** Check local codes for required breaker size.

Note: 30" Electric Ranges conform to U.L. requirements for 0" spacing from walls below countertops. Allow 1-1/2" spacing from the side of the range to adjacent vertical walls above the cooktop surface.

Receptacle Locations: Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against rear wall.

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.
All Hotpoint ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.
