# Introducing GE Refrigeration 2000

Fresh Ideas in Refrigeration  $^{\scriptscriptstyle{\text{TM}}}$ 

We bring good things to life.

# Only GE offers CustomStyle™ Refrigerators, and they're available in Side-By-Side and Top-Freezer models

A GE CustomStyle side-by-side refrigerator is the perfect solution for today's open-living kitchen designs.

# This is the kind of innovation you can expect from America's \*1 Manufacturer of Refrigerators

GE redesigned these refrigerators from the inside out. The goal was to offer consumers a stylish refrigerator that wouldn't take up as much floor space and at the same time, offer full-capacity storage. We did it! As a result, we are now offering a special category of refrigerators: CustomStyle. This line is now available in a full color selection, as well as with your own custom panel options.

GE's CustomStyle top-freezer refrigerator looks built-in on the outside, has more accessibility than any other free-standing top-freezer.

#### Side-By-Side Refrigerators

Top-Freezer Refrigerators

"Because they install nearly flush with the cabinets, these refrigerators save floor space. They don't stick out into the kitchen!"

# GE Profile Performance Series<sup>™</sup> CustomStyle<sup>™</sup> Stainless Steel Models

GE has kept pace with America's growing appetite for stainless steel appliances with CustomStyle refrigerators in the prestigious GE Profile Performance Series™. With these models, no trim or slide-in panels are required. The result is a finely crafted, sleek, clean CustomStyle appearance. Lately, more and more design-conscious homeowners are discovering that incorporating stainless steel into their kitchen decor doesn't have to be an "all or nothing" decision. GE's Profile Performance stainless steel refrigerators can be "mixed" with either black or white appliances. The effect is stunning. It's amazing how one major appliance can literally upgrade an entire kitchen. As for cabinetry, stainless steel compliments natural wood tones; and it also looks sensational with both traditional and designer colors. Our stainless steel models feature sleek black handles and dispenser.

## CustomStyle<sup>™</sup> Side-By-Side Refrigerators: Choose a trimless or installed trim model

GE Profile Performance Series™ Trimless Model TPX24PPDCC

## Trimless models: Installation made easy, simply slide in.

The trimless CustomStyle units install by simply sliding into—way into—the space between cabinets. Because they align with counters, CustomStyle refrigerators instantly look built-in. And there's nothing to attach or custom build. Available in white, black, almond, stainless steel and bisque.

Trimless models shown on pages 8 and 9.

GE Profile™ Installed Trim Model TPX24BRDWW

shown with a custom wood panel and optional collar trim TRMBISWW.

## Installed trim models: Another way to customize.

Whether you're building a brand new kitchen or planning for a renovation, GE opens a world of design possibilities. CustomStyle refrigerators accept a variety of door panels: stainless steel, as well as acrylic panels in white, black, almond or bisque.

The choices are simple.

## CustomStyle™ Side-By-Side trim and panel options

#### **Installed Trim Models**

#### Optional door panels: another way to customize.

When you choose GE CustomStyle refrigerators with installed trim, the choices of design are practically endless. Order stainless steel panels or acrylic panels in white, black, almond or bisque from GE, or make and install your own custom wood panels to accent the cabinetry in your kitchen.

#### Optional collar trim: available for all models listed below.

The optional collar trim is just another way GE lets you integrate our CustomStyle refrigerators into your kitchen decor. Available in white, black, almond, bisque and stainless steel, this trim frames the refrigerator facade, adding to the finished look of a built-in, custom kitchen. Collar trim: TRMBISWW, TRMBISBB, TRMBISAA, TRMBISSS, TRMBISCC.

#### Panels available:

Model TPX24BRD is available with white, black, almond, stainless steel or your own custom wood panel options. Models TPX24BPD, TPX24BID and TPX21BRD are available with white, black, stainless steel or your own custom wood panel options. Model TPX24BPD is available with bisque panel options.

#### **Dispenser Models**

**TPX24BIDWW**Shown with optional white acrylic panels.
Non-dispenser.

# The only CustomStyle<sup>™</sup> Top-Freezer Refrigerator: Choose a trimless or installed trim model

This is the first top-freezer refrigerator designed to align with countertops and not stick out or take up valuable floor space, evoking the "premium impression" of a custom built-in kitchen. Best of all, it has full-capacity storage and saves nearly 5" of floor space.

GE Profile Performance Series™ Trimless Model TNX22PRCWW

## Trimless models: Installation Made Easy, Simply Slide In

The trimless CustomStyle units install by simply sliding into—way into—the space between cabinets. Because they align with counters, CustomStyle refrigerators instantly look built-in. And there's nothing to attach or custom build. Available in white, black, stainless steel and bisque.

Trimless models shown on page 11.

## GE's design is ahead of the curve

New contoured doors are gently rounded and have a smooth, high-gloss finish for a high-fashion look. From this fresh new contoured door, to the fresh new ideas on the inside, GE's year 2000 side-by-side refrigerators are designed and loaded with features that keep America's number one brand ahead of the curve.

A high-gloss finish accentuates the smooth texture for a sophisticated look and feel.

## Contoured Door Side-By-Side Models: 26 cu. ft.

<sup>\*</sup>Color(s) available: BS = Black case with stainless steel doors, WW = White on white, CC = Bisque, AA = Almond on almond, BB = Black on black.

\*\*If installed against a wall, allow clearance of 11-1/4" on freezer side to remove bin. Clearance required to remove fresh food full size pan without disassembling is 13-1/2".

\*\*If installed against a wall, allow clearance of 11-1/4" on freezer side to remove bin. Clearance required to remove fresh food full size pan without disassembling is 13-1/2".

\*\*NOTE: When connecting a water supply line to a GE refrigerator, a GE Water Supply Kit is recommended.

## GE Profile Performance<sup>™</sup> and GE Profile<sup>™</sup> Side-by-Side CustomStyle<sup>™</sup> **Installation Information and Specifications**

#### Rough-In Dimensions

#### Standard, New Construction and Replacement Installation

#### Installation Tips to Maximize the Built-In Look

- · All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length 1/4" diameter water line tubing recommended.
- · When possible, recess both copper water line and electrical outlet. (See local codes)
- · Front and rear leveling legs are adjustable for the built-in look. (See owner's manual)
- · If optional collar trim kit is to be used or anticipated, see collar trim installation on next page for different rough-in dimensions.

"The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit. If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of reffigerator frim when cabinet doors are in open position.

For 21 cu. ft. models only

#### **Door Panel Dimensions**

Order your own custom wood panels to match cabinetry or other decor.

	Fresh Food Panels	Freezer Panel With Dispenser	Freezer Panel Without Dispenser	Weight Limits*
21 cu. ft.	G-65-3/16" H-20-1/16"	C-18-3/4" E-32-3/8" D-14-5/16" F-14-5/16"		Fresh Food = 38 lbs. Freezer = 28 lbs.
24 cu ft	G-67-1/8" H-19-5/16"	C-18-13/16" E-34-5/16" D-14-1/2" F-14-1/2"	A-67-1/8" B-14-1/2"	Fresh Food = 35 lbs.

Panels up to 1/4" thick will fit door frame with no special preparation Add filler behind material thinner than 1/4" for proper fit.

\*Total weight of panels (i.e., both freezer panels)

5/16

Note: Panels up to 3/4" will require special routing area around handles Dimensions may vary depending on depth of panel

## Installation of Water and Electrical Outlets

\*24-1/2" depth applies only to the refrigerator opening, not the actual cabinet depth.

All other dotted lines indicate areas that must be routed out about 5/32" (4 mm) on the back side of panels 1/4" (6 mm) thick or more. For panels less than 1/4" (6 mm) thick, these areas can be cut out of the filler panel.

IMPORTANT: Before finalizing specifications for your GE Profile Performance™ and GE Profile™ CustomStyle™ Refrigerator, please NOTE:

A minimum of 36" is required for refrigerator installation
 Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

For 21 cu. ft. models only.

Rear Wall View

<sup>\*24&</sup>quot; depth applies to the refrigerator opening, not the actual cabinet depth

If installed against a wall, allow clearance of 11-1/4" on freezer side to remove ice bin.

To remove fresh food pans, remove door bins. Clearances required to remove fresh food full-size pan without disassembling is 10-1/2" on 22 cu. ft.; 13-5/8" on 26 cu. ft.

#### Side-By-Side Refrigerators

**Bottom-Freezer Refrigerators** 

gives 1-1/4" clearance.

## GE Profile Performance<sup>™</sup> Top-Freezer CustomStyle<sup>™</sup> Installation Information and Specifications

#### Rough-In Dimensions

## Standard, New Construction and Replacement Installation

#### Installation Tips to Maximize the Built-In Look

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length 1/4" diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet. (See local codes)
- Front and rear leveling legs are adjustable for the built-in look. (See owner's manual)

#### Collar Trim Installation

An enclosure is required to match up to the trim, see Typical Installation. To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.

#### Rough-In Dimensions

8' Ceiling

Collar Trim Installation

\*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

For 22 cu. ft. models only.

\*22" depth applies to the refrigerator opening not the actual cabinet depth.

#### **Door Panel Dimensions**

Order your own custom wood panels to match cabinetry or other decor.

	Fresh Food Panels	Freezer Panel Without Dispenser	Freezer Panel With Dispenser
	B-42-1/4"	<b>A</b> -24-1/16"	D-24-1/16"
22 c	u. ft. C-35-3/4"	C-35-3/4"	C-35-3/4"

Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

**Note:** Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

#### Handle Side Clearance

-At least 2" (51 mm) on the handle side for fingertip clearances.

#### **Top and Bottom Clearance**

-At least 3/16" (4.75 mm) at the top and bottom edges to allow for trim flange. Hinge Side Clearance

- A 3/4" (19 mm) thick door panel may strike the adjacent countertops when the door is fully opened. Therefore, the hinge side clearance to raised panel will vary according to the installation situation.
- -Allow 1-3/4" (44 mm) clearance when installation does not include side panels.
- The installation of 3/4" (19 mm) thick side panels requires less clearance because the space between the door and adjacent countertop is wider.
- To avoid door contact to countertop consider:
- -Miter the corner of the adjacent countertops 45°, or
- -Pull the refrigerator forward enough to avoid contact.

#### Stability Leg

 The top-freezer refrigerator is the first cabinet-depth top-freezer. This means depth is more shallow than conventional models and the width is larger. The stability leg gives the unit extra support.

IMPORTANT: Before finalizing specifications for your GE Profile Performance CustomStyle Refrigerator, please NOTE:

- A minimum of 36" is required for refrigerator installation.
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

#### Top-Mount No-Frost Refrigerator

#### **Refrigerator Warranty**

(All models except: TAX2SNCWH/BL, TAX2SNYWN, TAX4SN)

Full One-Year Warranty (parts and labor at no additional charge) applies to the entire refrigerator.

Full Five-Year Warranty on the sealed refrigerating system (includes compressor, condenser, evaporator and all connecting tubing). Complete details available from your dealer.

Limited Lifetime Warranty for the life of the refrigerator, we will replace, at no additional charge any tinted see-through pan, drawer or bin made from polycarbonate resin and furnished with the refrigerator if the pan or drawer breaks during normal household use. Drawer covers are not included. You must take the pan or drawer to a GE Appliance Parts Mart and pick up a replacement.

Water Filter Warranty Limited 30-Day parts only.

<sup>\*</sup>Shelf needs to stay in lower position to support ice bucket and icemaker.

\*\*Color(s) available: WW = White on white, AA = Almond on almond, BB = Black on black, CM = Color-Matched.

<sup>\*\*\*</sup>Order as right-hand door opening with option to change to left-hand door opening.

## Fresh Ideas In Refrigeration™

New contoured doors are gently rounded and have a smooth, high-gloss finish for a high-fashion look. GE's year 2000 side-by-side refrigerators are designed and loaded with features that keep America's number one brand ahead of the curve.

#### Water by Culligan™ Filtration

- GE exclusive
- Filtered water and ice
- Easy to remove and replace filter

#### ClearLook™ Door Bins

- · Clear, fresh look
- Two-gallon capacity
- Limited lifetime warranty\*

\*See warranty for details

#### ShelfSaver<sup>™</sup>

- Adds flexible space
- Holds hard-to-store items
  - -cans
  - -egg cartons
  - -9" x 13" casserole dish

# From the fresh, new appearance to fresh-tasting ice and water, GE gives consumers what they want.

## **Industry Leading Service Support From—**

America's
#1
Preferred
Appliance
Brand

GE is the appliance brand most often mentioned among the brands rated as offering the best products and services in America.\*
