

GE APPLIANCES

SmartHQ™
PRO

Manage remotely.

SmartHQ™ Pro empowers multi-unit owners and property managers to get more done with a single, simple, scalable appliance management solution.

Scalable Solution

Scale software up or down depending on the size of your property portfolio.

Proactive Maintenance

Receive service notifications and anomaly detection alerts to reduce downtime.

Precision Diagnostics

Remotely troubleshoot issues and avoid unnecessary service calls.

Streamlined Service

Create service tickets, manage service teams, track service, and update progress in real-time from your dashboard.

Cost Savings

Reduce maintenance costs, unnecessary service calls, and energy usage for improved efficiency.
