

AIR HANDLERS

GE Appliances is proud to offer a full line of residential HVAC equipment that's **PRO**centric, from sale to service. Our range of air handlers features a full line of units with 1- or 2-piece design, variable speed options and more. And thanks to features that benefit pros and homeowners, it's never been easier to close the sale.

EASIER TO: DO THE JOB

Durable Aluminum Alloy Tube and Fin Coils

Our coils have been tested under extreme climate conditions and subjected to 500 hours of salt spray, so you know they're going to perform on the coasts and everywhere in between.

Factory-Installed TXV

Factory installed thermostatic expansion valve saves you time and makes each install quicker and easier.

EASIER TO: CLOSE THE SALE

Variable Speed Motor

Save homeowners money with this high efficiency air handler, equipped with a variable speed motor.

Air Quality

An antimicrobial drain pan helps keep mold, mildew, and other unwanted microbes out of the unit and the air in the home.

Ten-Year Warranty

Your homeowners can double the standard five-year warranty simply by registering their unit. Translation: peace of mind for homeowners.
