SmartHQ™ Connect+ Module

Model: PBX23W00Y1

The SmartHQ™ Connect+ Module enables select GE Appliances to connect to Wi-Fi, providing remote monitoring and control via the SmartHQ app. Ideal for enhancing appliance convenience, this module supports voice integration and over-the-air software updates.
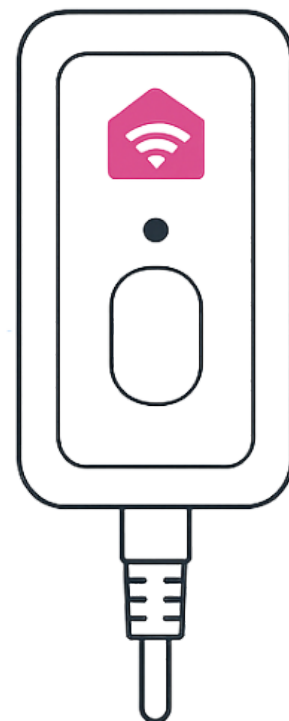

Key Features

➢ Wi-Fi Connectivity – Enables smart control and monitoring through the SmartHQ™ app (iOS/Android).

➢ Voice Assistant Compatible – Works with Amazon Alexa and Google Assistant.

➢ Remote Notifications – Sends cycle alerts, maintenance reminders, and status updates.

➢ Software Updates – Allows OTA updates to improve appliance performance.

➢ Plug-and-Play Installation – Easy to install into a dedicated appliance port.
