

# INSTALLATION INSTRUCTIONS FOR FILLER PANEL KITS JX42AL, JX42BL, JX42WH

## FOR 36" INSTALLATIONS:

**NOTE:** For 36" installations you will require 1 Filler Panel Kit.

### TOOL YOU WILL NEED

- Phillips screwdriver

### PARTS INCLUDED

- 1 Left Filler Panel
- 1 Right Filler Panel
- 10 Phillips Head Screws

(8 are required for installation)

- 5 Plastic Joiners

(Not used in this 36" installation)

Left Panel Right Panel

### INSTRUCTIONS

1. Place the left panel against the side of the left side cabinet and push it up against the bottom of the top cabinet and back against the back wall. The panel will protrude out slightly from the front face of the cabinet so that it will line up with the case on the microwave oven when it is installed.
2. Mount the panel to the left side cabinet using 4 screws.
3. Repeat the above steps for the right panel on the right side cabinet.
4. The microwave oven can now be installed.

Left Side Installation

Right Side Installation

## FOR 42" INSTALLATIONS:

**NOTE:** Two Filler Panel Kits will be required for a 42" installation.

### TOOL YOU WILL NEED

- Phillips screwdriver

### PARTS INCLUDED (from 2 kits)

- 2 Left Filler Panels
- 2 Right Filler Panels
- 20 Phillips Head Screws

(8 are required for installation)

- 10 Plastic Joiners

(8 are required for installation)

Left and Right Panels for Left Side Installation

Right and Left Panels for Right Side Installation

### INSTRUCTIONS

1. Using four plastic joiners attach a left and a right panel together.
2. Place the attached panels against the side of the left side cabinet and push them up against the bottom of the top cabinet and back against the back wall. The attached panels will protrude out slightly from the front face of the cabinet so that they will line up with the case on the microwave oven when it is installed.
3. Mount the attached panels to the left side cabinet using 4 screws.
4. Repeat the above steps for the right side cabinet.
5. The microwave oven can now be installed.
