## GE Monogram® Fully Integrated Built-In Dishwasher

### Dimensions and Specifications (in inches)

- The dishwasher must be installed so that the drain hose is no more than 10 feet in length for proper drainage.
- Water and power supply should enter in the shaded area.
- Electrical and water connections are at the right front of the dishwasher. The hot water line should extend forward 30" to 40" from the rear wall. The electrical must extend forward at least 24" to reach the junction box.
- To prevent siphoning, an air gap must be used when the waste tee or disposer connection is less than 18" above the floor.

### Electrical Requirements

The dishwasher must be supplied with 120V, 60Hz, and connected to an individual properly grounded branch circuit protected by a 15- or 20-amp circuit breaker or time-delay fuse.
