Retail Sales

New dishwashers from GE® – Fall 2005

GE® dishwasher quick pitch

High-performance and convenience with a fresh new style.

Stylish appearance

A **full-length door**, **easy-to-read, angled control panel**, and bright white racks with **silver touchpoints** create a modern look.

High-performance

New **BrilliantClean™ towerless wash system** with **CleanSensor™** directs water where it belongs—on the dishes. With BrilliantClean, nothing gets in the way of cleaning.

Peacefully quiet

GE QuietPower™ motor and BrilliantClean wash system work together to reduce noise.

Convenient flexibility

A **giant tub** with maximum capacity **Duron™ racks**, **three-digit countdown display**, and **SpeedCycle™** make this dishwasher flexible even when you can't be!

What's new: GE® tall tub built-in dishwashers

BrilliantClean™ wash system

- Sprays powerful jets of water focused directly on dishes, not on the dishwasher door or tub, so dishes get very clean, very quietly.
- Virtually eliminates time-consuming chores such as prerinsing, soaking and scrubbing.
- Reduces water, energy and sound by directing water precisely onto the dishes where it's needed.

Towerless wash design

- Removes obstructive wash towers from the racks for fast, simple loading.
- Allows loading of platters, pots and pans in both the top and bottom racks at once.

Stylish appearance

- Offers the clean lines of a full-length, flat door.
- Features a redesigned, angled control panel that is easy to read and easy to use.
- A squeeze latch opens the dishwasher door with ease.
- GE badge promises consumers the quality they expect from products manufactured by GE.

Light-touch electronic controls

- Provide a smooth, sleek surface and require only a light touch to operate.
- A three-digit countdown display signals remaining cycle time.
- The 1-9-hour Delay Start feature makes it easy to wash dishes at any hour, taking advantage of reduced energy rates or washing the dishes even while the family is asleep.

(Available on GLD6000L series models.)

SpeedCycle™

- Saves time by washing and drying dishes in 45 minutes or less, about half the time of a normal cycle.

(Available on GLD6000L series models.)

QuietPower™ sound packages

- Quieter than ever!
- Reduce noises, rather than hide them.
- Available with QuietPower 1, 2 and 3 levels of sound reduction.

Duron™ racks

- Bright white racks hold up to heavy use, featuring a special protective coating that's extra durable.
- 5-year limited warranty (see written warranty for details)

(Available on GLD6000L series models.)

Electronic controls

- Provide a smooth, easy-to-use, easy-to-clean surface.

(Available on GLD5000L and GLD4000L series models.)

Feature gallery: GE® tall tub built-in dishwashers GLD6000L series

Light-touch electronic controls

Require only gentle pressure to start your preferred cycle. Wipes clean easily.

CleanSensor™

Continually monitors the temperature and soil level in every cycle, adjusting for the optimal clean.

3-digit countdown display with 1-9-hour Delay Start

Signals remaining cycle time at a glance and makes it easier than ever to wash dishes at any hour.

SpeedCycle™

Cuts the length of the normal cycle in half, effectively washing and drying lightly soiled dishes in 45 minutes or less.

Maximum capacity Duron™ racking with StemSafe™

Washes even the largest cookware in durable racks guaranteed to hold up to heavy use with a 5-yr. limited warranty.

Maximum capacity 3-pc. silverware basket with 3 silver cell covers and ExtraBasket™

Provides the ultimate flexibility, keeping silverware and small items separate and secure while allowing the baskets to be placed in either the upper or lower rack.

Feature gallery: GE tall tub built-in dishwashers GLD5000L series

Electronic controls
Provide a smooth, easy-to-use, easy-to-clean surface.

SaniSensor™
NSF-certified to continually measure water temperature to assure dishes are sanitized.

2/4/8-hour Delay Start
Makes it easier than ever to wash dishes at any hour.

SaniWash cycle
Will reduce bacteria found on dishes by 99.999%.

Super capacity racking with 2 silver utility shelves in upper rack
Washes up to 15 place settings at once, with room for cookie sheets, platters and other tall items.

Super capacity 1-pc. silverware basket with 3 silver cell covers
Provides extra room for washing silverware, measuring spoons and other utensils.

Feature gallery: GE® tall tub built-in dishwashers
GLD4000L series

GE model GLD4100LWW

Electronic controls

Easy-to-clean surface makes it easy to select from a wide range of cycles.

2/4-hour Delay Start*

Makes it easier than ever to wash dishes at any hour.

*2/4/8-hour Delay Start on GLD4300L series

Light wash

Cleans lightly soiled and delicate dishware in a shorter, cooler cycle.

Deluxe silverware basket with silver cell cover

Provides convenient space and capacity to clean silverware efficiently and effectively.

Deluxe capacity racking

Washes up to 14 place settings at once.

Feature gallery: GE tall tub built-in dishwashers

Features available on all GLD6000L, GLD5000L and GLD4000L series models

Full-length flat door

Blends almost seamlessly with adjacent cabinetry.

Angled control panel

Angled, modern design makes it easy to read and select cycles.

Giant tub

Holds tall and oversized dishware, with plenty of room to wash large items in both the top and bottom racks.

Squeeze latch

Opens and closes the door with a light touch.

ENERGY STAR®-qualified

Can reduce utility bill by using less energy to get dishes clean.

Last Cycle Memory

Recalls last cycle run with the touch of a button for a quick and easy start.

Wood panel capabilities

Accepts custom wood panels for a complete designer look. Requires trim kit.

Low profile installation

Easy to install, even with built-up flooring.

The inside story.

BrilliantClean™ wash system. It's all about clean dishes.

What a brilliant idea - directing water onto dishes from every spray arm to get the entire load incredibly clean. This powerful wash action provides better cleaning performance, while the towerless design assures nothing gets in the way of simply spotless dishes.

6-level towerless wash system

Quietly powers dishes clean with six wash levels and three wash arms washing every dish precisely.

(GLD6000L and GLD5000L series models.)

4-level towerless wash system

Four wash levels and two wash arms direct water onto dishes for an efficient and quiet clean.

(GLD4000L series models.)

100% triple filtration

Water stays clean, so just-washed dishes do, too.

Multi-wattage Calrod® heater

Quickly heats water to dissolve detergent and clean dishes, then cools down to dry dishes gently.

Piranha™ hard food disposer

Grinds leftover food into small particles that are easily washed away.

HotStart™

Preheats water and dishes before the main wash cycle for dependable performance every time.

Improved pump

Uses only 15 gallons of water per minute. The result is cleaner dishes using 30% less water.

GE QuietPower™ motor

Runs quietly and efficiently to keep the kitchen peaceful.

Dual pumps and motors

Provide excellent wash performance by circulating water throughout the wash system and removing food soils during drain.

Dare to compare

Appearance

GE® GLD6500LBB

Consumers preferred GE's appearance over similarly priced Maytag and Whirlpool models*.

- Angled control panel has been redesigned with a larger, easier-to-read display.
- Sleek lines make the vent a design element, as fashionable as it is functional.
- Individual cycle controls provide versatility and are easy to use.
- Full-length flat door enhances any kitchen.
- All GLD6000L, GLD5000L and GLD4000L series models accept custom panels.

**Research by The Stevenson Company.*

Whirlpool

- Controls are relegated to one corner of the control panel.
- Control panel is larger and bulkier.
