

# AIR HANDLERS

## EASIER TO: DO THE JOB

### R454B REFRIGERANT

Compatible with R454B refrigerant, featuring a factory-installed refrigerant detection system with sensor and controller.

### DURABLE ALUMINUM ALLOY TUBE & FIN COILS

Our coils have been rigorously tested under extreme climate conditions and subjected to 500 hours of salt spray, ensuring reliable performance on the coasts and everywhere in between.

### FACTORY-INSTALLED TXV

Factory-installed thermostatic expansion valves save you time, making each installation quicker and easier.

### LONGER SERVICE VALVE CONNECTIONS

Longer service valves provide the flexibility to make connections your way. Whether you prefer mechanical or brazed connections, our units are designed to accommodate both.

### MINIMAL AIR LEAKAGE

All models feature less than 2% air leakage and comply with ANSI/ASHRAE Standard 193-2010.

### CORROSION-RESISTANT DRAIN PANS

Durable, corrosion-resistant polymer drain pans feature dual pipe drains, including primary and secondary (overflow) outlets.

## EASIER TO: CLOSE THE SALE

### AIR QUALITY

An antimicrobial drain pan helps prevent mold, mildew, and other unwanted microbes from entering the unit and the air in the home.

### TEN-YEAR WARRANTY

Double the standard five-year warranty by registering the unit. Translation: peace of mind for your homeowners. See warranty documentation for complete details.
