# Introduction

GE Eterna™ Series is the smart choice for your kitchen or laundry room, offering you a remarkable array of innovative features and a fresh, contemporary look you'll love. The Eterna Series offers great value, too – the perfect combination of must-have features, reliable performance and affordable price.

Eterna Series appliances are available only from selected dealers. Talk to yours – and look through the following pages – and you're sure to find Eterna models that fit your needs, your family's lifestyle and your budget perfectly. And remember, with Eterna, you're choosing America's #1 Preferred Appliance Brand,\* GE Appliances.

Before purchasing any appliance, read important information about its estimated annual energy consumption or energy efficiency rating that is available from your retailer or at [ge.com](http://ge.com).

\*GE is the appliance brand most often mentioned among the brands rated as offering the best products and services in America, according to a recent Louis Harris Poll 2004.

## Installation information (in inches)

**Note:** Conforms to U.L. requirements for 0" spacing for adjacent walls below countertops. To reduce possibility of scorching of walls, it is recommended a minimum of 1-1/2" spacing be allowed from adjacent side walls to allow for possible extended, high-heat, no-load heating element operation.

**Receptacle locations:** For 30" Free-Standing Ranges locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.
