Uses Least Energy n/a Uses Most Energy n/a

kWh/year (kilowatt-hours per year) is a measure of energy (electricity) use. Your utility company uses it to compute your bill. Only models with 24.5 to 26.4 cubic feet and the above features are used in this scale.

Refrigerators using more energy cost more to operate. This model's estimated yearly operating cost is:

Based on a 2005 U.S. Government national average cost of $9.06\,\text{c}$ per kWh for electricity. Your actual operating cost will vary depending on your local utility rates and your use of the product.

Important: Removal of this label before consumer purchase Violates the Federal Trade Commission's Appliance Labeling Rule. (16 CFR Part 305).
