GE Profile[™] and GE CustomStyle[™] Refrigerators

Built-in appearance. Outstanding performance.

The Ultimate in Refrigeration.™

offers a couple of **fitting solutions**. A GE Profile[™] or new GE

CustomStyle[™] refrigerator **makes the most of your kitchen space** by blending in almost seamlessly with surrounding cabinetry. It **gives you the style you want** and features

you need, without the cost and inconvenience of a kitchen redo.

For a sleek, **modern appearance**, choose stainless or acrylic panels. Or, achieve a **custom look** with cabinet-matching wood panels. Whatever style you prefer, you'll find a CustomStyle refrigerator that **works beautifully with your décor and budget.**

If you want a built-in look, without the built-in expense, GE

GE Profile CustomStyle™ side-by-side refrigerators make an impressive design statement, without standing out.

CustomStyle side-by-side models are the perfect solution for today's open-living kitchen designs. They extend only 26 3/4" from the wall, saving more than six inches of floor space.

ge.com

GE Profile Arctica® and GE CustomStyle™ Side-by-Sides

An impressive design statement, without standing out.

For a built-in look, without the built-in expense, here's a fitting solution. A GE Profile CustomStyle™ refrigerator makes the most of your kitchen space by blending in almost seamlessly with surrounding cabinetry. It gives you the style you want and features you need, without the cost and inconvenience of remodeling. For a sleek, modern appearance, choose stainless or acrylic panels. Or, achieve a custom look with cabinet-matching wood panels. Whatever style you prefer, you'll find a CustomStyle refrigerator that works beautifully with your decor and budget.

Installed-trim side-by-side models

Designed for today's discriminating consumers.

CustomStyle refrigerators with installed trim accept stainless steel or acrylic panels in white, black or bisque, all of which can be ordered from GE. To achieve a custom look, you can order wood panels from your cabinetmaker. You'll discover all kinds of ways to enhance your kitchen.

Optional Panels

Choose stainless steel panels or acrylic panels in white, bisque or black.

Custom Wood Panels

Make and install your own custom wood panels to accent cabinetry.

Optional collar trim: adding the final touch.

The optional collar trim is just another way GE lets you integrate our CustomStyle refrigerators into your kitchen decor. Available in stainless steel, white, bisque and black, this trim frames the refrigerator facade, adding to the finished look of a built-in, custom kitchen.

Trimless side-by-side models

Installation made easy: simply slide in.

Trimless CustomStyle units install by simply sliding into—way into—the space between cabinets. They align with counters, instantly look built-in, with nothing to attach or build. (Available in stainless steel, white, bisque and black.)

Non-Dispenser Model

GSC23LSR Stainless steel with tubular handles. Available in stainless or white and black as GSC23LGQ.

GSC22KGR Available in white or black.

PSI23SCRStainless steel with full-length visor handles.

Feature gallery.

Freshness at every level.

QuickSpace[™] shelf

Quickly slides out of the way to make room for tall items.

Tall LightTouch! dispenser

Accommodates tall glassware and dispenses water and ice at the slightest touch.

SmartWater™ filtration system

Delivers clean, great-tasting water and ice through the LightTouch! dispenser.

ONLY GE HAS IT!

Full-extension bin with **CustomCool**[™] technology

Chills in minutes, thaws in hours and helps keep foods fresher, longer. For added convenience, it opens fully to allow easy access. (Limited lifetime warranty* on slides)

Model PSW23PSR

Upfront electronic controls with digital temperature readout

Are precise and easy to use. Takes the guesswork out of selecting accurate temperatures.

TurboCool[™] feature

Quickly cools the refrigerator after frequent door openings or when hot items are placed inside.

In-the-door beverage rack

Conveniently located inside the refrigerator door to increase flexibility and free up valuable shelf space.

Adjustable ClearLook™ bins

Hold gallon-size containers with style and ease, freeing up valuable shelf space.

Slide-out, spillproof glass shelves

Simplify loading, unloading and cleaning.

ONLY GE HAS IT!

ClimateKeeper[™] system

Combines electronic touch controls, multiple electronic sensors and a multiflow air system to keep temperatures consistent and help preserve foods. The Best Temperature Management System You Can Buy!

Integrated shelf support system

Designed so that shelves are securely integrated into the cabinet, yet slide out with ease. It makes versatile use of every inch of storage space.

The inside story.

Freshness at every level.

ONLY GE HAS IT!

Integrated Ice™ system

The ice bucket is integrated into the icemaker, not the freezer door, freeing up valuable storage space. Tilt-down feature provides easy access to cubed ice.

ONLY GE HAS IT!

Slide 'n Store™ full-extension freezer baskets

Extends 16" for easy loading and unloading.

FrostGuard[™] technology

Reduces defrosting to protect frozen items from freezer burn, monitoring door openings and defrosting only when needed.

NeverClean[™] condenser

Condenser coils are encased, so they don't require cleaning in normal operating environments.

Deluxe Quiet Design

Significantly reduces operating noise, so the refrigerator doesn't intrude on dinner conversations.

ENERGY STAR®-qualified

GSC22KGRBB Black on black

Feature Gallery—GE CustomStyle Side-by-Sides

TurboCool™ feature

Quickly cools the refrigerator after frequent door openings or when hot items are placed inside.

Upfront electronic touch temperature controls

Are easy to see and to set.

QuickSpace[™] shelf

Quickly slides out of the way to make room for tall items.

ClearLook[™] adjustable gallon door bins

Provides maximum storage flexibility.

FrostGuard™ technology

Reduces freezer burn, so foods retain their texture and flavor.

Integrated Ice™ system

The ice bucket is integrated into the icemaker, not the freezer door, freeing up valuable storage space. Tilt-down feature provides easy access to cubed ice.

GE Profile Arctica CustomStyle™ Side-by-Side Installation Information & Specifications

Rough-In Dimensions

Standard, New Construction and Replacement Installation

Installation Tips to Maximize the Built-In Look

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length, 1/4"-diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet (see local codes).
- Front and rear leveling legs are adjustable for the built-in look (see owner's manual).
- If optional collar trim kit is to be used or anticipated, see collar trim installation on next page for different rough-in dimensions.

*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

Installation of Water Outlets

Rear Wall View

IMPORTANT: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:

- A minimum width of 36" is required for refrigerator installation
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

Create a Custom Look for Your GE Profile CustomStyle Side-by-Side Refrigerator

Still another advantage offered by GE Profile CustomStyle Refrigerators is ease of installation. For a refrigerator that does so much to enhance the beauty of your kitchen, the "behind-the-scenes" preparation and installation are surprisingly simple.

Fabricating the Enclosure

- The drawing shows an 84" cabinet elevation. Adjust dimensions accordingly for other cabinet elevations.
- Cabinet pieces to order: (2) side panels and (1) wall cabinet.
- Side panels will typically be attached to adjacent cabinets and/or cleated to rear wall and floor
- Refer to GE refrigerator installation instructions for proper plumbing, and electrical and air clearances.
- (1) Some framed cabinet lines will make a refrigerator enclosure with a cabinet 12" high x 39" wide with sides and 1-1/2" face frame extended down to floor to create the refrigerator space. This will replace the above construction.
 (2) A tall cabinet on either side of the refrigerator can replace a side panel.
- Counter overhangs on either side of the refrigerator should have clipped corners to allow for full door swing.
- If the refrigerator has a wall returning beyond the front of the refrigerator on either side, a 2" tall filler will help allow for movement of the door.

Door Panels

- See drawings for exact dimensions of the fresh-food and freezer door panels.
- Refrigerator door fronts from stock and most semi-custom cabinet manufacturers will be supplied as 1/4"-thick panels cut to dimensions, with closest available standard door sizes applied to front.
- -This will leave a "reveal" at top/bottom and sides. Width of "reveal" will depend on manufacturer's standard door sizes.
- -Door will be affixed on the 1/4" panels at factory or in the field by the local supplier, depending on manufacturer.
- Local shop-built or custom cabinet supplier may fabricate custom 3/4" panels.
 In this case, edges must be routed.
- Follow notes on drawing to assure room for fingers/hands to open handles.

Door Panel Dimensions

Freezer Panel without Dispenser Freezer Panel Fresh Food with Dispenser Cut out :◄- 1/8 ·**←** 1/8 5/16 5/16 5/16 -14-15/32 17-7/8 67-9/32 67-9/32 FRONT FRONT FRONT -14-15/32 -19-15/32 14-15/32 33-5/8

Order your own custom wood panels to match cabinetry or other decor.

Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

Weight Limits: Total weight of panels (i.e., both freezer panels)—Fresh Food = 38 lbs., Freezer = 28 lbs.

Note: Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

Detail C

(Fresh Food panel shown) Notch required at top corner as noted.

Collar Trim Installation

An enclosure is required to match up to the trim (see Typical Installation). To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used. then some of the side panel will extend beyond the trim and must be finished.

"The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

Shaded areas represent front surfaces of side panels and overhead cabinet or soffit that contacts trim.

IMPORTANT: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:

- A minimum width of 36-1/8" is required for refrigerator installation with collar
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36-1/8" minimum

ge.com

Answers that click! GE puts everything you need at your fingertips.

GE Appliances web site — 16 million visitors a year! Visit us at GEAppliances.com

Everything you need to know about GE products is here. Access up-to-date information, find out "what's new," obtain dimensions, get installation tips and more. Extremely user-friendly, this one-stop site lets you research by brand, category or model number and even buy online through a local GE dealer.

GE Answer Center® saves you time. 800.626.2000

This 24-hour-a-day, 7-day-a-week service provides answers on product features, installation, service and more.

A Century of Quality and Innovation

For more than a century, GE has been committed to producing innovative products that change the way people live. The result of thorough research and rigorous testing, GE appliances are designed for years of dependable performance.

Today, the GE tradition of quality and innovation continues.

Before purchasing an ENERGY STAR®-qualified appliance, read important information about its estimated annual energy consumption or energy efficiency rating that is available from your retailer or at GEAppliances.com.

GE has a policy of continuous improvement of its products and reserves the right to change materials and specifications without notice.
