Dryers

IMPORTANT SAFETY INFORMATION. READ ALL INSTRUCTIONS BEFORE USING.

⚠ WARNING!

For your safety, the information in this manual must be followed to minimize the risk of fire or explosion, electric shock, or to prevent property damage, personal injury, or loss of life.

GASOLINE & FLAMMABLE VAPORS

- Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.
- Installation and service must be performed by a qualified installer, service agency or the gas supplier.

IF YOU THINK YOU SMELL GAS:

- 1** Do not try to light a match, or cigarette, or turn on any gas or electrical appliance.
- 2** Do not touch any electrical switch; do not use any phone in your building.
- 3** Clear the room, building or area of all occupants.
- 4** Immediately call your gas supplier from a neighbor's phone. Follow the gas supplier's instructions carefully.
- 5** If you cannot reach your gas supplier, call the fire department.

California Safe Drinking Water and Toxic Enforcement Act

This act requires the governor of California to publish a list of substances known to the state to cause cancer, birth defects or other reproductive harm and requires businesses to warn customers of potential exposure to such substances.

Gas appliances can cause minor exposure to four of these substances, namely benzene, carbon monoxide, formaldehyde and soot, caused primarily by the incomplete combustion of natural gas or LP fuels.

Properly adjusted dryers will minimize incomplete combustion.

Exposure to these substances can be minimized further by properly venting the dryer to the outdoors.

PROPER INSTALLATION

This dryer must be properly installed and located in accordance with the Installation Instructions before it is used. If you did not receive an Installation Instructions sheet, you can receive one by calling us toll-free at the GE Answer Center[®], 800.626.2000.

- Properly ground dryer to conform with all governing codes and ordinances. Follow details in Installation Instructions.
- Install or store where it will not be exposed to temperatures below freezing or exposed to the weather.
- Connect to a properly rated, protected and sized power supply circuit to avoid electrical overload.
- Remove all sharp packing items and dispose of all shipping materials properly.

Exhaust/Ducting:

- 1** Gas dryers **MUST** be exhausted to the outside.
- 2** Exhausting electric dryers to the outside is **strongly recommended** to prevent large amounts of moisture and lint from being blown into the room.
- 3** Use only rigid metal or flexible metal 4" diameter ductwork inside the dryer cabinet or for exhausting to the outside. **USE OF PLASTIC OR OTHER COMBUSTIBLE DUCTWORK CAN CAUSE A FIRE. PUNCTURED DUCTWORK CAN CAUSE A FIRE IF IT COLLAPSES OR BECOMES OTHERWISE RESTRICTED IN USE OR DURING INSTALLATION.**

For complete details, follow the Installation Instructions.

IMPORTANT SAFETY INFORMATION. READ ALL INSTRUCTIONS BEFORE USING.

⚠ WARNING!

YOUR LAUNDRY AREA

- Keep the area underneath and around your appliances free of combustible materials, such as lint, paper, rags, chemicals, etc.
- Keep the floor around your appliances clean and dry to reduce the possibility of slipping.
- Close supervision is necessary if this appliance is used by or near children. Do not allow children to play on, with, or inside this or any other appliance.
- Keep all laundry aids (such as detergents, bleaches, etc.) out of the reach of children, preferably in a locked cabinet. Observe all warnings on container labels to avoid injury.
- Never climb on or stand on the dryer top.

WHEN USING YOUR DRYER

- Never reach into the dryer while the drum is moving. Before loading, unloading or adding clothes, wait until the drum has completely stopped.
- Clean the lint filter before each load to prevent lint accumulation inside the dryer or in the room. **DO NOT OPERATE THE DRYER WITHOUT THE LINT FILTER IN PLACE.**
- Do not wash or dry articles that have been cleaned in, washed in, soaked in, or spotted with combustible or explosive substances (such as wax, oil, paint, gasoline, degreasers, dry-cleaning solvents, kerosene, etc.) which may ignite or explode. Do not add these substances to the wash water. Do not use or place these substances around your washer or dryer during operation.

Use this appliance only for its intended purpose as described in this Owner's Manual.

- Any article on which you have used a cleaning solvent or that contains flammable materials (such as cleaning cloths, mops, towels used in beauty salons, restaurants, or barber shops, etc.) must not be placed in or near the dryer until solvents or flammable materials have been removed. There are many highly flammable items used in homes such as acetone, denatured alcohol, gasoline, kerosene, some household cleaners, some spot removers, turpentine, waxes, wax removers and products containing petroleum distillates.
- The laundry process can reduce the flame retardancy of fabrics. To avoid such a result, carefully follow the garment manufacturer's care instructions.
- Do not dry articles containing rubber, plastic, or similar materials such as padded bras, tennis shoes, galoshes, bath mats, rugs, bibs, baby pants, plastic bags, pillows, etc. that may melt or burn. Some rubber materials, when heated, can under certain circumstances produce fire by spontaneous combustion.
- Do not store plastic, paper or clothing that may burn or melt on top of the dryer during operation.
- Garments labeled *Dry Away from Heat* or *Do Not Tumble Dry* (such as life jackets containing Kapok) must not be put in your dryer.
- Do not dry fiberglass articles in your dryer. Skin irritation could result from the remaining particles that may be picked up by clothing during subsequent dryer uses.
- To minimize the possibility of electric shock, unplug this appliance from the power supply or disconnect the dryer at the household distribution panel by removing the fuse or switching off the circuit breaker before attempting any maintenance or cleaning (except the removal and cleaning of the lint filter).
NOTE: Turning the Cycle Selector knob to an **OFF** position does **NOT** disconnect the appliance from the power supply.

IMPORTANT SAFETY INFORMATION. READ ALL INSTRUCTIONS BEFORE USING.

⚠ WARNING!

WHEN USING YOUR DRYER

- Never attempt to operate this appliance if it is damaged, malfunctioning, partially disassembled, or has missing or broken parts, including a damaged cord or plug.
- The interior of the machine and the exhaust duct connection inside the dryer should be cleaned periodically by a qualified individual.
- If yours is a gas dryer, it is equipped with an automatic electric ignition and does not have a pilot light. **DO NOT ATTEMPT TO LIGHT WITH A MATCH.** Burns may result from having your hand in the vicinity of the burner when the automatic ignition may turn on.
- If you wish to soften your laundered fabrics or reduce the static electricity in them, use a dryer-applied fabric softener or an anti-static conditioner. We recommend you use either a fabric softener in the wash cycle, or try a dryer-added product for which the manufacturer gives written assurance on the package that their product can be safely used in your dryer. Service or performance problems you may have with these products are the responsibility of the manufacturers of those products and are not covered under the warranty of this appliance.

WHEN NOT IN USE

- Grasp the plug firmly when disconnecting this appliance to avoid damage to the cord while pulling. Place the cord away from traffic areas so it will not be stepped on, tripped over or subjected to damage.
- Do not attempt to repair or replace any part of this appliance or attempt any servicing unless specifically recommended in this Owner's Manual or in published user-repair instructions that you understand and have the skills to carry out.
- Before discarding a dryer, or removing it from service, remove the dryer door to prevent children from hiding inside.
- Do not tamper with controls except as described in this Owner's Manual.

REMEMBER...

Your continued health and safety are important to us.

Please read and follow this Safety Information carefully.

We want you to remain a happy and healthy part of our GE family.

SAVE THESE INSTRUCTIONS

Congratulations! ***You Are Now Part of the Hotpoint Family.***

Welcome to the Hotpoint family. We're proud of our quality products and we are committed to providing dependable service. You'll see it in this easy-to-use Owner's Manual and you'll hear it in the friendly voices of our customer service department.

Best of all, you'll experience these values each time you use your dryer. That's important, because your new dryer will be part of your family for many years. And we hope you will be part of ours for a long time to come.

We thank you for buying Hotpoint. We appreciate your purchase, and hope you will continue to rely on us whenever you need quality appliances for your home.

Important!

Staple sales slip or cancelled check here.

Proof of the original purchase date is needed to obtain service under the warranty.

Write the model and serial numbers here.

#

#

You can find them on the front of the dryer behind the door.

Hotpoint & You, A Service Partnership.

Ask any Hotpoint appliance owner and they will tell you we stand behind our products with unmatched quality service. However, did you know that most questions result from simple problems that you can easily fix yourself in just a few minutes? This Owner's Manual can tell you how.

Read this Manual

Inside you will find many helpful hints on how to use and maintain your dryer properly. Just a little preventive care on your part can save you a great deal of time and money over the life of your dryer.

Review the Section on Troubleshooting Tips

You'll find many answers to common problems here. If you review our chart of Troubleshooting Tips first, you may not need to call for service at all.

If You Need Service

If you do need service, you can relax knowing help is only a phone call away. A list of toll-free customer service numbers is included in the back section. Or you can always call the GE Answer Center® at 800.626.2000, 24 hours a day, 7 days a week.

Customer Service

About the dryer control panel.

Control Settings

Start

Close the dryer door. Select **START**. Opening the door during operation will stop the dryer. To restart the dryer, close the door and select **START** to complete the cycle.

Automatic Drying Cycles

Automatic drying cycles automatically sense fabric dryness. Select **MORE DRY** for heavier fabrics, **LESS DRY** for lighter fabrics.

AUTO PERM. PRESS For synthetic blends and delicates.

AUTO COTTONS For cottons and most linens.

TIMED DRY Set the Cycle Selector at the desired drying time.

Loading and using the dryer.

Sorting and Loading Hints

As a general rule, if clothes are sorted properly for the washer, they are sorted properly for the dryer.

Do not add fabric softener sheets once the load has become warm.

Do not overload. This wastes energy and causes wrinkling.

Do not dry the following items: fiberglass items, woolens, rubber-coated items, plastics, items with plastic trim and foam-filled items.

Care and Cleaning of the Dryer

The Exterior: Wipe or dust any spills or washing compounds with a damp cloth. Dryer control panel and finishes may be damaged by some laundry pretreatment soil and stain remover products. Apply these products away from the dryer. The fabric may then be washed and dried normally. Damage to your dryer caused by these products is not covered by your warranty.

The Lint Filter: Clean the lint filter before each use. Moisten your fingers and reach into the filter opening. Run your fingers across the filter. Have a technician vacuum the lint from the dryer every three years.

The Exhaust Duct: Inspect and clean the exhaust ducting at least once a year to prevent clogging. A partially clogged exhaust can lengthen the drying time.

Follow these steps:

- 1 Turn off electrical supply by disconnecting the plug from the wall socket.
- 2 Disconnect the duct from the dryer.
- 3 Vacuum the duct with the hose attachment and reconnect the duct.

The Exhaust Hood: Check with a mirror that the inside flaps of the hood move freely when operating. Make sure that there is not wildlife (birds, insects, etc.) nesting inside the duct or hood.

Before you call for service...

Troubleshooting Tips

Save time and money! Review the charts on the following pages first and you may not need to call for service.

Problem	Possible Causes	What To Do
Dryer doesn't start	Dryer is unplugged	<ul style="list-style-type: none"> • Make sure the dryer plug is pushed completely into the outlet.
	Fuse is blown/circuit breaker is tripped	<ul style="list-style-type: none"> • Check the house fuse/circuit breaker box and replace fuse or reset breaker. NOTE: Most electric dryers use two breakers.
Dryer doesn't heat	Fuse is blown/circuit breaker is tripped, the dryer may tumble but not heat	<ul style="list-style-type: none"> • Check the house fuse/circuit breaker box and replace fuse or reset breaker.
	Gas service is off	<ul style="list-style-type: none"> • Make sure gas shutoff at dryer and main shutoff are fully open.
Dryer shakes or makes noise	Some shaking/noise is normal. Dryer may be sitting unevenly	<ul style="list-style-type: none"> • Move dryer to an even floor space, or adjust as necessary until even.
Greasy spots on clothes	Improper use of fabric softener	<ul style="list-style-type: none"> • Follow directions on fabric softener package.
	Drying dirty items with clean ones	<ul style="list-style-type: none"> • Use your dryer to dry only clean items. Dirty items can stain clean items and the dryer.
	Clothes were not completely clean	<ul style="list-style-type: none"> • Sometimes stains which cannot be seen when the clothes are wet <i>appear</i> after drying. Use proper washing procedures before drying.
Clothes are wrinkled	Overdrying	<ul style="list-style-type: none"> • Select a shorter drying time. • Remove items while they still hold a slight amount of moisture.
	Letting items sit in dryer after cycle ends	<ul style="list-style-type: none"> • Remove items when cycle ends and fold or hang immediately.

Problem	Possible Causes	What To Do
Lint on clothes	Lint filter is full	<ul style="list-style-type: none"> • Clean lint screen before each load.
	Improper sorting	<ul style="list-style-type: none"> • Sort lint producers (like chenille) from lint collectors (like corduroy).
	Static electricity can attract lint	<ul style="list-style-type: none"> • See suggestions in this section under STATIC.
	Overloading	<ul style="list-style-type: none"> • Separate large loads into smaller ones.
	Paper, tissue, etc. left in pockets	<ul style="list-style-type: none"> • Empty all pockets before laundering clothes.
Static occurs	Overdrying	<ul style="list-style-type: none"> • Try a fabric softener. • Adjust controls for less drying.
	No fabric softener was used	<ul style="list-style-type: none"> • Try a fabric softener.
	Synthetics, permanent press and blends can cause static	<ul style="list-style-type: none"> • Try a fabric softener.
Inconsistent drying times	Type of heat	<ul style="list-style-type: none"> • Automatic drying times will vary according to the type of heat used (electric, natural or LP gas), size of load, types of fabrics, wetness of clothes and condition of exhaust ducts.
Clothes shrink	Some fabrics will naturally shrink when washed. Others can be safely washed, but will shrink in the dryer	<ul style="list-style-type: none"> • To avoid shrinkage, follow garment care labels exactly. • Some items may be pressed back into shape after drying. • If you are concerned about shrinkage in a particular item, do not machine wash or tumble dry it.

Before you call for service...

Problem	Possible Causes	What To Do
Clothes take too long to dry	Improper sorting	<ul style="list-style-type: none"> Separate heavy items from lightweight items (generally, a well-sorted washer load is a well-sorted dryer load).
	Large loads of heavy fabrics (like beach towels)	<ul style="list-style-type: none"> Large, heavy fabrics contain more moisture and take longer to dry. Separate large, heavy fabrics into smaller loads to speed drying time.
	Controls improperly set	<ul style="list-style-type: none"> Match control settings to the load you are drying.
	Lint filter is full	<ul style="list-style-type: none"> Clean lint filter before every load.
	Improper or obstructed ducting	<ul style="list-style-type: none"> Check installation instructions for proper ducting/venting. Make sure ducting is clean, free of kinks and unobstructed. Check to see if outside wall damper operates easily. Check the Installation Instructions to make sure the dryer venting is correct.
	Blown fuses or tripped circuit breaker	<ul style="list-style-type: none"> Replace fuses or reset circuit breakers. Since most dryers use 2 fuses/breakers, make sure both are operating.
	Overloading/ combining loads	<ul style="list-style-type: none"> Do not put more than one washer load in the dryer at a time.
	Underloading	<ul style="list-style-type: none"> If you are drying only one or two items, add a few items to ensure proper tumbling.

Hotpoint Dryer Warranty

All warranty service provided by our Factory Service Centers, or an authorized Customer Care[®] technician. For service, call 800-GE-CARES.

For The Period Of:

One Year

From the date of the original purchase

We Will Replace, At No Charge To You:

Any part of the dryer which fails due to a defect in materials or workmanship. During this **full one-year warranty**, we will also provide, **free of charge**, all labor and in-home service to replace the defective part.

What Is Not Covered:

- Service trips to your home to teach you how to use the product.
- Replacement of house fuses or resetting of circuit breakers.
- Improper installation.
- Damage to the product caused by accident, fire, floods or acts of God.
- Failure of the product if it is abused, misused, or used for other than the intended purpose or used commercially.
- Incidental or consequential damage to personal property caused by possible defects with this appliance.

This warranty is extended to the original purchaser and any succeeding owner for products purchased for home use within the USA. In Alaska, the warranty excludes the cost of shipping or service calls to your home.

Some states do not allow the exclusion or limitation of incidental or consequential damages. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. To know what your legal rights are, consult your local or state consumer affairs office or your state's Attorney General.

Service Telephone Numbers.

GE Answer Center® 800.626.2000

The GE Answer Center® is open 24 hours a day, 7 days a week.

In-Home Repair Service 800-GE-CARES (800-432-2737)

Expert GE repair service is only a phone call away.

Special Needs Service 800.626.2000

TDD 800-TDD-GEAC (800-833-4322)

GE offers, free of charge, Braille controls for a variety of GE appliances and a brochure to assist in planning a barrier-free kitchen for persons with limited mobility.

Service Contracts 800-626-2224

Purchase a GE service contract while your warranty is still in effect and you'll receive a substantial discount. GE Consumer Service will still be there after your warranty expires.

Parts and Accessories 800-626-2002

Individuals qualified to service their own appliances can have parts or accessories sent directly to their homes (VISA, MasterCard and Discover cards are accepted).

Instructions contained in this manual cover procedures to be performed by any user. Other servicing generally should be referred to qualified service personnel. Caution must be exercised, since improper servicing may cause unsafe operation.

Service Satisfaction

If you are not satisfied with the service you receive from GE, follow these three steps. **First**, contact the people who serviced your appliance. **Next**, if you are still not pleased, write all the details—including your phone number—to: Manager, Consumer Relations, GE Appliances, Appliance Park, Louisville, KY 40225. **Finally**, if your problem is still not resolved, write:

Major Appliance Consumer Action Program
20 North Wacker Drive, Chicago, IL 60606.
