

PB915ST

GE Profile™ 30" Free-Standing Electric Range with Warming Drawer

Dimensions and Installation Information (in inches)

KW Rating	
240V	13.7
208V	10.3
Breaker Size	
40 Amps†	

†**Note:** Check local codes for required breaker size.

Effective January 1, 1996, the National Electrical Code requires that new construction (not existing) utilize a 4-conductor connection to an electric range.

Receptacle Locations

Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

Note: 30" ranges conform to U.L. requirements for 0" spacing from adjacent walls below countertops. To reduce possibility of scorching walls, engineering recommends a minimum of 1-1/2" spacing to allow for possible extended, high-heat, no-load heating element operation.

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.

NOTE: Use a 4' power cord to prevent interference with the storage drawer. Power cords 4 1/2' to 6' long may have to be dressed to allow for proper drawer closing.

PB915ST

GE Profile™ 30" Free-Standing Electric Range with Warming Drawer

Features and Benefits

- PreciseAir™ convection system - A reversing fan circulates heat and air for evenly browned and baked foods
- Single/multi-rack convection bake - Provides ideal airflow throughout the oven, ensuring optimal results on both racks
- 5.3 cu. ft. oven capacity - Enough room to cook an entire meal at once
- 12"/9"/6" Tri-ring element - Provides three cooking areas in one for the ultimate in cooking versatility
- Bridge element - Combines three cooktop elements into one large cooking area, ideal for griddles and gourmet pans
- Fifth element warming zone - Simplify meals by keeping foods fresh from the oven warm and ready to serve
- Hidden bake oven interior - Conceals the lower oven bake element to eliminate hard-to-reach areas that collect food and spills for easy cleaning
- Model PB915STSS – Stainless SPteel
