GE Profile™ and GE® Refrigerators

The Ultimate in Refrigeration.™
Rethought. Reinvented. Revolutionized.

imagination at work

The Ultimate in Refrigeration.™

GE Profile Arctica® has the freshest ideas in refrigeration, including the

new **ClimateKeeper2™ dual-evaporator system** which carefully controls

humidity to keep foods **fresh days longer**. The **stylish exterior** makes

a **dramatic** statement, and the multilevel interior makes **versatile**

use of every inch of storage space. In the freshfood compartment,

slide-out shelves **simplify** loading and unloading. In the freezer

compartment, the ice system is **uniquely** designed to allow more

room for more food. In addition to **innovative** storage features, both

compartments offer a range of cooling capabilities for the ultimate

in **flexibility** and **performance**.

Feature Gallery: Built-In Side-by-Sides

1 **Overhead evaporator system**

Provides additional freezer space, eliminates shared air and reduces defrosting. Access panel easily lifts out of the way for convenient replacement of the water filter.

2 **ClimateKeeper™ System**

Combines electronic touch controls, multiple electronic sensors and a multiflow air system to keep temperatures consistent and help preserve foods.

3 **Digital temperature controls**

Located on the dispenser to provide easy-access, electronic accuracy in controlling fresh food and freezer compartment temperatures.

4 **Soft-touch dispenser**

Dispenses water and ice with gentle pressure, complete with safety and convenience features such as a child lock and door alarm, filter replacement indicator light and QuickIce™ system.

5 **SmartWater™ Plus filtration**

Ensures access to clear, better-tasting water and ice with filter change indicator light and simple-to-install Twist and Lock design.

6 **Spillproof glass shelves**

Contains spills to keep cleanup to a minimum.

7 **ClearLook™ door bins**

Holds beverages and condiments securely and stylishly.

8 **Adjustable humidity vegetable/fruit crispers**

Customizes the storage environment to keep fruits and vegetables at their best.

9 **Secure-close door system**

Engineered with an advanced hinge system that automatically pulls the door shut when angled at 90° or less.

ENERGY STAR®-qualified

Reduces energy usage below federal energy standards by 15% or more, for a high-efficiency design that can help lower utility bills.

Stainless steel   White   Black

Make an impressive design statement, without standing out.

Built-in refrigerators with installed trim accept acrylic panels in white or black which can be ordered from GE. To achieve a custom look, you can order 1/4" or 3/4" wood panels from your cabinetmaker. You'll discover all kinds of ways to enhance your kitchen. Our trimless unit, which comes in stainless steel, simply slides into the space between cabinets. It instantly looks built-in with nothing to attach or build.

Feature Gallery: Side-by-Sides

1 ClimateKeeper*2*™ System

Keeps foods fresh longer, while protecting ice from odor transfer, with its unique dual-evaporator system.

2
Upfront digital controls with temperature readout

Are precise and easy to use.

3 TurboCool™ feature

Quickly cools the refrigerator after frequent door openings or when hot items are placed inside.
4 SmartWater™ filtration system

Delivers clean, great-tasting water and ice through the LightTouch! dispenser.
5 In-the-door beverage rack

Conveniently located inside the refrigerator door to increase flexibility and free up valuable shelf space.

6 Adjustable ClearLook™ bins

Hold gallon-size containers with style and ease.

7 Slide-out, spillproof glass shelves

Simplify loading, unloading and cleaning.

8 It chills!
It thaws!
It preserves!
It fully extends!

Full-extension bin with CustomCool™ technology

Chills in minutes, thaws in hours and helps keep foods fresher, longer. For added convenience, it opens fully to allow easy access.

Limited lifetime warranty* on slides. See written warranty for details.

9
Integrated Ice™ system

The ice bucket is integrated into the icemaker, not the freezer door, freeing up valuable storage space. It pulls out and down, providing easy access to cubed ice.

10
Slide 'n Store™ full-extension freezer baskets

Extend 16" for easy loading and unloading.

11 QuickSpace™ shelf

Quickly slides out of the way to make room for tall items.

Tall LightTouch! dispenser

Accommodates tall glassware and dispenses water and ice at the slightest touch.

GE Profile Arctica® and GE CustomStyle™ Side-by-Sides

An impressive design statement, without standing out.

For a built-in look, without the built-in expense, here's a fitting solution. A GE Profile CustomStyle refrigerator makes the most of your kitchen space by blending in almost seamlessly with surrounding cabinetry. It gives you the style you want and features you need, without the cost and inconvenience of remodeling. For a sleek, modern appearance, choose stainless or acrylic panels. Or, achieve a custom look with cabinet-matching wood panels. Whatever style you prefer, you'll find a CustomStyle refrigerator that works beautifully with your decor and budget.

Others extend up to 33" from wall

33"

GE Profile CustomStyle extends 26-3/4" from wall

26-3/4"

Saves over 6"

Installed-trim side-by-side models

Designed for today's discriminating consumers.

CustomStyle refrigerators with installed trim accept stainless steel or acrylic panels in white, black or bisque, all of which can be ordered from GE. To achieve a custom look, you can order wood panels from your cabinetmaker. You'll discover all kinds of ways to enhance your kitchen.

Trimless side-by-side models

Installation made easy: simply slide in.

Trimless CustomStyle units install by simply sliding into—way into—the space between cabinets. They align with counters, instantly look built-in, with nothing to attach or build. (Available in stainless steel, white, bisque and black.)

Optional Panels

Choose stainless steel panels or acrylic panels in white, bisque or black.

Custom Wood Panels

Make and install your own custom wood panels to accent cabinetry.

Optional collar trim: adding the final touch.

The optional collar trim is just another way GE lets you integrate our CustomStyle refrigerators into your kitchen decor. Available in stainless steel, white, bisque and black, this trim frames the refrigerator facade, adding to the finished look of a built-in, custom kitchen.

GE Profile CustomStyle™ Top-Freezers

An impressive design statement, without standing out.

If you want a built-in look, but can't afford the built-in expense, here's a fitting solution. A GE Profile CustomStyle refrigerator makes the most of your kitchen space by blending in almost seamlessly with surrounding cabinetry. It gives you the style you want and features you need, without the cost and inconvenience of a kitchen redo. For a sleek, modern appearance, choose stainless or acrylic panels. Or, achieve a custom look with cabinet-matching wood panels. Whatever style you prefer, you'll find a CustomStyle refrigerator that works beautifully with your decor and budget.

Others extend up to 31" from wall
31"

GE Profile CustomStyle extends 26" from wall
26"
Saves nearly 5"

Installed-trim top-freezer models

Designed for today's discriminating consumers.

CustomStyle refrigerators with installed trim accept stainless steel or acrylic panels in white or black, all of which can be ordered from GE. To achieve a custom look, you can order wood panels from your cabinetmaker. You'll discover all kinds of ways to enhance your kitchen.

Optional Panels
Choose stainless steel panels or acrylic panels in white or black.

Custom Wood Panels
Make and install your own custom wood panels to accent cabinetry.

Optional collar trim: adding the final touch.

The optional collar trim is just another way GE lets you integrate our CustomStyle refrigerators into your kitchen decor. Available in stainless steel, white and black, this trim frames the refrigerator facade, adding to the finished look of a built-in, custom kitchen.

Trimless top-freezer models

Installation made easy: simply slide in.

Trimless CustomStyle units install by simply sliding into—way into—the space between cabinets. They align with counters and instantly look built-in, with nothing to attach or build. (Available in stainless steel, white, bisque and black.)

Feature Gallery: Top-Freezers

1 Internal water dispenser

Provides chilled, great tasting filtered water on demand, from inside the refrigerator.

2 Adjustable temperature deli drawer

Provides a convenient, temperature-controlled place for meats, cheeses and other favorite foods.

3 Slide-out, spillproof glass shelves

Simplify loading, unloading and cleaning.

4 Only GE has it!
Electronic touch controls with digital temperature readout

Precise and easy to use. Take the guesswork out of selecting accurate temperatures.

5 ShelfSaver™ beverage rack

Provides convenient storage for a 12-pack, two egg cartons or a 9"x 13" casserole dish.

6 Adjustable ClearLook™ gallon door bins

Hold large containers with style and ease.

7 Adjustable humidity crispers

Provide the ideal storage environment for fruits and vegetables.

GE SmartWater™ and ice filtration

Delivers clean, fresh-tasting water through the internal water dispenser.

Only GE has it!
FrostGuard™ technology

Defrosts only when needed, reducing freezer burn.

†When cap is removed: 69-1/4". ††Width including caps: 36-3/16".
If installed against a wall, allow clearance of 13-15/16" on freezer side to remove bin.
Clearance required to remove fresh food full size pan without disassembling is 18-5/8".
**ALL MODELS AVAILABLE IN U.S. AND CANADA.**

GE Profile Arctica CustomStyle™ Side-by-Side
Installation Information & Specifications

Rough-In Dimensions

Standard, New Construction and Replacement Installation

Installation Tips to Maximize the Built-In Look

• All wall/floor molding should be removed prior to installation.

• Water recess on rear wall recommended to prevent water line damage. 48" minimum length, 1/4"-diameter water line tubing recommended.

• When possible, recess both copper water line and electrical outlet (see local codes).

• Front and rear leveling legs are adjustable for the built-in look (see owner's manual).

• If optional collar trim kit is to be used or anticipated, see collar trim installation on next page for different rough-in dimensions.
8' Ceiling

12" Soffit

13" to 14" Cabinet

70-1/4"*

24"

36"

Water

Electrical

3/4" Airspace (1/2" Gap + 1/4" Wall Plates)

24" Cabinet

25" Counter Top

*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

Installation of Water Outlets
1/2"

Alternate water line location through floor

Allow 48" minimum water line to enable refrigerator to be pulled forward

24"

18"

Recommended water line location using recess in rear wall

Rear Wall View

IMPORTANT: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:
• A minimum width of 36" is required for refrigerator installation
• Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

Create a Custom Look for Your GE Profile CustomStyle Side-by-Side Refrigerator

Still another advantage offered by GE Profile CustomStyle Refrigerators is ease of installation. For a refrigerator that does so much to enhance the beauty of your kitchen, the "behind-the-scenes" preparation and installation are surprisingly simple.

W3624

Side Trim

Route hand slot before installing panel.

1/2" to 3/4" Side Panel
Fabricating the Enclosure
• The drawing shows an 84" cabinet elevation. Adjust dimensions accordingly for other cabinet elevations.
• Cabinet pieces to order: (2) side panels and (1) wall cabinet.
• Side panels will typically be attached to adjacent cabinets and/or cleated to rear wall and floor.
• Refer to GE refrigerator installation instructions for proper plumbing, and electrical and air clearances.
• (1) Some framed cabinet lines will make a refrigerator enclosure with a cabinet 12" high x 39" wide with sides and 1-1/2" face frame extended down to floor to create the refrigerator space. This will replace the above construction.
(2) A tall cabinet on either side of the refrigerator can replace a side panel.
• Counter overhangs on either side of the refrigerator should have clipped corners to allow for full door swing.
• If the refrigerator has a wall returning beyond the front of the refrigerator on either side, a 2" tall filler will help allow for movement of the door.

Door Panels
• See drawings for exact dimensions of the fresh-food and freezer door panels.
• Refrigerator door fronts from stock and most semi-custom cabinet manufacturers will be supplied as 1/4"-thick panels cut to dimensions, with closest available standard door sizes applied to front.
  – This will leave a "reveal" at top/bottom and sides. Width of "reveal" will depend on manufacturer's standard door sizes.
  – Door will be affixed on the 1/4" panels at factory or in the field by the local supplier, depending on manufacturer.
• Local shop-built or custom cabinet supplier may fabricate custom 3/4" panels. In this case, edges must be routed.
• Follow notes on drawing to assure room for fingers/hands to open handles.

Order your own custom wood panels to match cabinetry or other decor.
Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

Weight Limits: Total weight of panels (i.e., both freezer panels)—
Fresh Food = 38 lbs., Freezer = 28 lbs.

Note: Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

1/8" →
5/16"

Panels 1/4" thick or less

1/4" Max.
(Fresh Food panel shown)
Notch required at top corner as noted.

Collar Trim Installation

An enclosure is **required** to match up to the trim (see Typical Installation). To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.

1/2" minimum

70-1/4"*

24-1/2"*

36-1/8"

*The rough-in dimension of 70-1/4" is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

GE Profile CustomStyle Top-Freezer Refrigerators
Installation Information & Specifications

Rough-In Dimensions

**Standard, New Construction and Replacement Installation**

Installation Tips to Maximize the Built-In Look

- All wall/floor molding should be removed prior to installation.
- Water recess on rear wall recommended to prevent water line damage. 48" minimum length, 1/4"-diameter water line tubing recommended.
- When possible, recess both copper water line and electrical outlet (see local codes).
- Front and rear leveling legs are adjustable for the built-in look (see owner's manual).

Collar Trim Installation

An enclosure is **required** to match up to the trim (see Typical Installation). To obtain the most integrated look, the cabinet or soffit above the refrigerator should extend out to the same depth as the side panels. The refrigerator opening must have minimum dimensions of 70-1/4" high x 36-1/8" wide x 24-1/2" deep as shown at right. If there is an overhead cabinet, allow 1" for cabinet door clearance with the top trim piece so the cabinet doors can be opened without hitting the top trim. If 1/2" side panels are used, then side trim and panel will be even. If 3/4" side panels are used, then some of the side panel will extend beyond the trim and must be finished.
Rough-In Dimensions

Installation without collar trim

8' Ceiling
12" Soffit
13" to 14" Cabinet
70-1/4"*
24"
36"

Collar Trim Installation

Installation with collar trim

8' Ceiling
12" Soffit
13" to 14" Cabinet
70-1/4"*
24-1/2"
36-1/8"

*The rough-in dimension of 70-1/4 is minimum and is measured from the finished floor to top of opening (or the underside of the overhead cabinets). For Models with Trim Kit: If frameless style cabinets are planned for above the refrigerator, you may need to consider adding a maximum of 1/4" (70-1/2") to height of opening to allow additional clearance between cabinet doors and top of refrigerator trim when cabinet doors are in open position.

Water   Electrical
3/4" Airspace (1/2" Gap + 1/4" Wall Plates)
24" Cabinet
24-1/2"* Side panels
25" Counter Top

For 22 cu. ft. models only.
*22" depth applies to the refrigerator opening, not the actual cabinet depth.

Door Panel Dimensions

Order your own custom wood panels to match cabinetry or other decor.

	Fresh Food Panels	Freezer Panel Without Dispenser	Freezer Panel With Dispenser
22 cu. ft.	B-42-1/4" C-35-3/4"	A-24-1/16" C-35-3/4"	D-24-1/16" C-35-3/4"

Panels up to 1/4" thick will fit door frame with no special preparation. Add filler behind material thinner than 1/4" for proper fit.

Note: Panels up to 3/4" will require special routing area around handles. Dimensions may vary depending on depth of panel.

Handle Side Clearance
- At least 2-5/8" (67mm) on the handle side for fingertip clearances.

Top and Bottom Clearance
- At least 3/16" (4.75mm) at the top and bottom edges to allow for trim flange.

Hinge Side Clearance
- A 3/4" (19mm) -thick door panel may strike the adjacent countertops when the door is fully opened. Therefore, the hinge side clearance to raised panel will vary according to the installation situation.
  – Allow 1-3/4" (44mm) clearance when installation does not include side panels.
  – The installation of 3/4" (19mm) -thick side panels requires less clearance because the space between the door and adjacent countertop is wider.

- To avoid door contact to countertop, consider:
  – Mitering the corner of the adjacent countertops 45°, or
  – Pulling the refrigerator forward enough to avoid contact.

Stability Leg
- The top-freezer refrigerator is the first cabinet-depth top-freezer. This means depth is more shallow than conventional models and the width is larger. The stability leg gives the unit extra support.

IMPORTANT: Before finalizing specifications for your GE Profile CustomStyle Refrigerator, please NOTE:
- A minimum width of 36" is required for refrigerator installation
- Be sure to allow for 1/2" or 3/4" side panels in addition to the 36" minimum

Answers that click!

GE puts everything you need at your fingertips.

GE Appliances web site — 16 million visitors a year!
Visit us at GEAppliances.com

Everything you need to know about GE products is here. Access up-to-date information, find out "what's new," obtain dimensions, get installation tips and more. Extremely user-friendly, this one-stop site lets you research by brand, category or model number and even buy online through a local GE dealer.

GE Answer Center® saves you time. 800.626.2000

This 24-hour-a-day, 7-day-a-week service provides answers on product features, installation, service and more.

A Century of Quality and Innovation

For more than a century, GE has been committed to producing innovative products that change the way people live. The result of thorough research and rigorous testing, GE appliances are designed for years of dependable performance.

Today, the GE tradition of quality and innovation continues.
